COMPLETE THIS FORM IN ITS ENTIRETY, EVEN IF THE RESPONSE IS "NOT APPLICABLE".

1. **REQUIRING ACTIVITY.**
Ship Repair Facility Japanese Regional Maintenance Center, Yokosuka; Naval Station Yokosuka Japan.

2. **DESCRIPTION OF CONTRACT ACTION.**

a. State if procurement is:
(1) Urgent Competitive (not sole source)
(2) Non-Urgent Sole Source
(3) Urgent Sole Source

Note: Dealer competition (different dealers offering the product of the *same manufacturer*) is sole source.

b. For urgent, non-sole source requirements, provide the name, address, and phone/fax numbers of all known providers of the required product, preferably a minimum of three manufacturers. (Although the contracting office maintains a list of sources, it is best to provide sources you know can provide what is needed so that valuable time is not wasted in soliciting and evaluating offers from companies who cannot meet your needs.)

c. For sole source requests, provide the contractor name, point of contact, address and phone/fax numbers. If a sole source manufacturer distributes via dealers, provide dealer information here.

Vendor: INTERNATIONAL PAINT LLC, Address: 6001 Antoine Dr, Houston, TX 77091, United States, Phone:(800) 589-1267. POC: John Mangano 516-635-6826. Reference Government contract GS-21F-0108Y which expires: 05/31/2017.

Point to note: We requested quotes from 49 different vendors and this vendor had the best quote for money and production time.

3. **DESCRIPTION OF SUPPLIES/SERVICES, ESTIMATED DOLLAR VALUE AND DELIVERY REQUIREMENTS.** Give a short description of the item or service required, the estimated cost, and required delivery date. (Sole source and urgency information is not needed here).

Non-Skid deck cover for flight deck and landing area for [redacted] (b)(3)
[redacted] (b)(3)

1st item: Part number: EGA650/6GL/KIT INTERSHIELD 6GV 480 kits at [redacted] (b) (5) **for a total unit price of** [redacted] (b) (5)

2nd item; Part number EGA654/6GL/KIT INTERSHIELD 6LV 24 kits at [redacted] (b) (5) **for a total unit price of** [redacted] (b) (5)

Transportation cost, [redacted] (b) (5) **Total price of complete requested order:** [redacted] (b) (5)

4. EXPLANATION OF URGENT AND/OR SOLE SOURCE CIRCUMSTANCES.

Keep in mind:

- Lack of planning does not support urgency.
- Expiring funds/late release of funds does not support urgency
- Only the government's immediate minimum quantity requirement can be purchased under urgency.

a. **For Urgent Non-Sole Source Requirements:**

(1) Provide a time line from when the need was identified. If a late identified item, explain why.
(2) Identify manufacturing lead time.
(3) Explain why the item is needed and what will happen if it's not received by the Required Delivery Date (RDD). Describe impact on overhaul/availability schedules, impact to base support, personnel safety issues, potential environmental damages, etc., and include the dollar value associated with late delivery.

b. **For Non-Urgent Sole Source Requirements:**

(1) Explain the unique features/function of the item and why only one manufacturer can provide it. Discuss why a similar product from another manufacturer will not work.
(2) If the item can only be obtained from the OEM (Original Equipment Manufacturer), discuss the proprietary (i.e. owned by the company, not for public release) design/drawing/ specification requirements. Include a statement from the OEM that the proprietary information will not be released to the government.
(3) If there is a higher order requirement mandating a particular manufacturer (i.e. NAVSEA drawing or IRPOD), cite the requirement and who approved or required its usage.
(4) For component repair or replacement parts, explain any compatibility requirements, including a description of the existing equipment and the interface requirements.

c. **For Urgent Sole Source Requirements:**

(1) Provide both the Urgency and Sole Source information requested above.

On the 14 and 15 of May 2014, orders were place for the painting products for the Non-skid work on the flight decks, landing areas and hanger bays of the forward deployed aircraft carrier, [redacted] (b)(3) . These orders were for NSNs that are managed by GSA. After about 1-1/2 weeks, it was becoming clear that GSA would not have the materials available for the unit's upkeep which is scheduled for August 2014. The RDD for this material is August 1, 2014 to support production schedules. GSA currently had an estimated delivery date of December 2014 which would definitely not support. After placing quotes with 49 different vendors we received the quote from International Paint LLC, quote I.D.: RFQ881439-REW. It is vital and mission critical that this material be provided for the landing of aircraft and safety of equipment and personnel in high tempo and hazardous working environments in the launching and recovery of aircraft. In addition that material being requested is what is already being used on the ship. This will have to match in order that care a preservation is identical for all areas new and already existing on the ship.

5. **MARKET SURVEY.** A market survey is simply finding out which companies can provide what you're looking for, whether by searching for sources over the internet, reviewing product literature, or contacting sources over the phone.
   a. Describe any market survey conducted. Include companies contacted and the information they provided that confirmed the urgent/sole source requirement.
   b. ~~If sole source is based on proprietary data, a statement to that effect is all that is required in~~ response to this block.

   See attached for market survey

6. **ADDITIONAL FACTS**. This applies primarily to sole source requirements, but any additional information supporting urgency not previously addressed elsewhere in the document can be included in this section.
   a. State the cost to the government to develop competitive and/or performance based specifications for the proprietary item. Include estimated labor categories and estimated labor hours spent in reverse engineering and time spent in generating and approving the drawings and/or specifications.
   b. If it is impossible for the government to develop competitive and/or performance based specifications, state that and indicate why.

7. **FUTURE COMPETITION**. Provide information on the steps you are taking to insure that the next time you need the item, it will not be an urgent or sole source procurement.

   We will ascertain the need and production schedules to make sure material are delivered in a timely manner.

8. **INFORMATION TECHNOLOGY (IT) APPROVALS.** This only applies to procurements for IT equipment (i.e. computers, printers, modems, etc.) The contract specialist will assist in identifying the documentation requirements.
