4. IDENTIFICATION OF STATUTORY AUTHORITY: This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1. This is the first time DLA Maritime Mechanicsburg is procuring NIIN: 016264757.

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:

The current Acquisition Method Code (AMC/AMCS) is	3R	. This acquisition will be negotiated with:

(CAGE 95270) SKURKA AEROSPACE INC

Only the above manufacturing source(s) will be solicited because the article to be acquired is a highly specialized part. This unit is coded sole source to Cage 95270 who owns the drawings and were identified as the approved source of supply by the ISEA during initial provisioning. The Government does not have the rights to the drawings to be able to solicit competitively or to guarantee the same form, fit and function as the item currently being procured. No other viable sources of supply were identified during the provisioning phase for the item. Based on the information available to the Government at this time, Skurka Aerospace Inc has been identified as the only unit approved to meet the Government's minimum needs.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: The government will synopsize this contract action by posting a synopsis on FedBizOpps.gov as required by FAR Subpart 5.2. This justification and the resulting contract will be posted to FedBizOpps in accordance with FAR 5.3.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: Market Research was performed by the engineering activity at the time of initial provisioning and no other viable sources of supply were identified. Technical has perused available databases such as ITIMP, NSEDR, and JEDMICS to validate that Cage 95270 is currently the only source identified that can provide a form, fit and functionally compatible unit at this time. Based on this market research, the contracting officer has determined that the only known manufacturing source is 95270. A Sources Sought Notice was posted on FedBizOpps.gov on (7/24/2015) with a closing date of (8/10/2015). No new manufacturers expressed an interest in the item.

9. ANY OTHER SUPPORTING FACTS:

This part must be acquired from a manufacturing source specified on a source control or selected item drawing as defined by the current version of DoD-STD-100. Suitable technical data, Government data right, or manufacturing knowledge are not available to permit acquisition from other sources, nor qualification testing of another part, nor use of a second source part in the intended application. Although, by DoD-STD-100 definition, altered and selected items shall have an adequate technical data package, data review discloses that required data or data rights are not in Government possession and cannot be economically obtained.

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition:
