4. IDENTIFICATION OF STATUTORY AUTHORITY: This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1.

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:

The current Acquisition Method Code (AMC/AMCS) is	3R	This acquisition will be negotiated with:52088

(CAGE 52088) Lockheed Martin Corporation

Only this source will be solicited because the article to be acquired is a highly specialized part, designed and manufactured by this non-Government activity. Lockheed Martin is the design agent, system integrator and the NAVSEA approved source of supply and certified depot for the AN/UYQ-70(V) weapon system. NAVSUPWSS does not possess the necessary engineering drawing masters, developmental specifications, engineering change data, interface specifications, etc. required to source this part to another vendor other than Lockheed Martin. This Battery Assembly which is part of the Q70 system must be purchased from Lockheed Martin to guarantee compatibility with the existing system is maintained. No other manufacturer's part can be used as a replacement for this item because NAVSUP WSS does not have required Navy technical support activity (TSA) or in-service engineering support approval to parts procured or repaired by sources other than Lockheed Martin. Parts cannot be broken out without potential negative impact to host weapon system certification, configuration management and operating systems.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: A pre-solicitation notice to inform potential sources of this impending requirement will be posted on FedBizOpps prior to issuance of the solicitation. This justification and the resulting contract will also be posted on FedBizOpps.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A technical review has been conducted, and based on this review; the contracting officer determines there are no other identifiable sources. Based on marketing research the contracting officer has determined that the only known manufacturing source is 52088 .

9. ANY OTHER SUPPORTING FACTS:

The data or the rights to use the data needed to purchase this part from additional sources are not owned by the Government and it is not economical to purchase them.

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition:
None at this time.

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION: The government will include a clause in this solicitation that provides that the government will consider alternate offers, and that alternate offerors should submit a source approval request (SAR) package that will be referred to the cognizant engineering activity. If, due to mission requirements, the current procurement cannot be delayed in order to allow sufficient time for the engineering activity to determine whether to approve the alternate offer, the SAR package will be considered for future awards. This item has been reviewed under the NAVSUP WSS limited screen process and determined that the item cannot be broken out. No additional actions to remove barriers to competition are required under this process.
