Revised 11/13

4. IDENTIFICATION OF STATUTORY AUTHORITY: This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1.

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:
The current Acquisition Method Code (AMC/AMSC) is 3Q. For the reasons explained below, these supplies are only available for the following sources:

Cage 02750 – Eaton Aerospace LLC

AMC 3 – Acquire for the second or subsequent time directly from the actual manufacturer.
AMSC Q – The Government does not have adequate data, lacks rights to data, or both, needed to purchase this part from additional sources. The Government has been unable to economically buy the data or rights to the data, although the part has been undergoing full screening for 12 or more months. Breakout to competition has not been achieved, but current continuing actions to obtain necessary rights to data or adequate reprocurement technical data indicate breakout to competition is expected to be achieved.

The Motional Transducer being procured is one of the NAVSEA 08 Nuclear Interest Items managed at NAVSUP for all classes of submarines. The technical data pertaining to nuclear items is considered sensitive. As stated above by the AMC/AMSC Code, the Government does not have adequate data to provide a competitive bid package for the manufacture of this part. Eaton Aerospace's part is the only approved part that meets the Government's need.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: The Government will synopsize this contract action by posting a synopsis on FedBizOpps.gov as required by FAR 5.2.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained, it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A Technical review has been conducted on this item. The review consisted of searching several Government databases including ITIMP, Naval Ships Engineering Drawing Repository, Federal Logistics Information Center & ERP as well as the Internet. Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, AMC/AMSC, Applicable TMS Weapon System/Usable-on-Code, Criticality Coding, recorded approved sources of supply, historical sources of supply and past contracts. Based on this research, the Contracting Officer has determined that the only known manufacturing source is Eaton Aerospace LLC.

9. ANY OTHER SUPPORTING FACTS: None at this time.

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition: NONE

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION:
The solicitation will include a clause providing that the Government will consider alternate offers, and that alternate offerors should submit a source approval request (SAR) package that will be referred to the cognizant engineering activity. If, due to mission requirements, the current procurement cannot be delayed in order to allow sufficient time for the engineering activity to determine whether to approve an alternate offer, the SAR package will be considered for future awards. This acquisition will be synopsized via FedBizOpps and any firm requesting a copy of the solicitation will be provided one.
