BREMERTON, WASHINGTON 98314-5120

CONTROL NUMBER 2016-048

N00406-16-T-0518

JUSTIFICATION AND APPROVAL
FOR SOLE SOURCE PROCUREMENT
Under Simplified Procedures for Certain Commercial Items (FAR 13.5)

1. **Contracting Activity.**

NAVSUP Fleet Logistics Center Puget Sound (FLCPS)

2. **Description of Action Being Approved.**

Award of a firm fixed price service type contract on a sole source basis for on-site assessment of the material condition of three Ship's Service Air Compressors (SSAC) and two Oxygen Nitrogen Compressors (O2N2) in support of a US Aircraft carrier from Dresser-Rand of Chula Vista, CA.

3. **Description of Supplies/Services.**

This requirement is for Dresser-Rand to perform on-site assessment of the material condition for three SSACs and two O2N2 compressors. The assessment is to include operational test and visual inspection of compressor, motor, motor controller, temperature monitoring and drain system. Work to be performed [redacted] (b)(7)(F) Period of performance is from 9/18/2016 to 10/06/2016. The total estimated cost is [redacted] (b)(5) Funding will be FY16 O&MN.

4. **Statutory Authority Permitting Sole Source.**

10 U.S.C. 2304(c)(1) - A sole source acquisition under the authority of the simplified acquisition procedures for certain commercial items, as implemented by FAR 13.501(a).

5. **Rationale Justifying Use of Cited Statutory Authority.**

Sole Source:

Dresser-Rand Company is the sole designer, developer and manufacturer of the SSAC and O2N2 compressors onboard. The existing installed SSAC and O2N2 units are complex and engineered for aircraft carrier applications. All components of the SSAC's and O2N2 are proprietary to the OEM. Therefore,

Dresser-Rand is the only contractor with the requisite knowledge, experience and technical data that can provide the required replacement parts and technical representative services for the assessment of these air compressors. Delaying the purchase under the proposed contract until the development of other potential sources who would be able to conform to the OEM conditions required for these compressors [redacted] (b) (7)(F) for the U.S. Navy that outweigh any anticipated benefit from competition under the proposed contract. The cost to the government to have other than the OEM manufacture any parts which may be required, would increase costs by more than double.

6. **Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable**.

Similar services were required in contract N00406-16-P-0763. The previous contract was synopsized and solicited but received no interest from other Contractors. Market research indicates that Dresser-Rand Company is the only Contractor capable of providing the services required. A synopsis and solicitation will be posted to NECO for the current requirement. No further market research was conducted because it is not practicable, for the reasons stated in paragraph 5 above, for any company other than Dresser-Rand to provide the required service.

7. **Determination of Fair and Reasonable Cost**.

The contracting officer has determined the anticipated cost to the Government of the supplies/services covered by this J&A will be fair and reasonable utilizing the appropriate methodology for the contract type.

8. **Actions to Remove Barriers to Future Competition**.

For the reasons set forth in Paragraph 5, FLCPS has no plans at this time to compete future contracts for the types of supplies/services covered by this document. If another potential source emerges, FLCPS will assess whether competition for future requirements is feasible.
