Item description required for all items:

This UHF filter is an agile filter/amplifier cascade for the UHF frequency band with a VHF bypass. It enables simultaneous operation of multiple transceivers in the cosite environment. This filter/amplifier provides multiple poles of RF selectivity to reduce broadband noise, harmonics, and spurious signals while still providing full output power in transmit mode and excellent selectivity to interfering signals at the transceiver's RF input in receive mode. This is the only item that has been tested and found to be form, fit and functional within the next higher assembly, LCS Seaframe.

4. IDENTIFICATION OF STATUTORY AUTHORITY: This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1. The supplies required by the agency are only available from one responsible source or a limited number of sources and no other type of supplies will satisfy agency requirements.

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:

The current Acquisition Method Code (AMC/AMCS) is	3P	. For the reasons explained below, these

Supplies are only available from the following source(s): 0U5W0- Pole Zero Corporation

Only the above manufacturing source will be solicited because the article to be acquired is a highly specialized part. This UHF Filter is sourced to Pole Zero Corporation, Cage 0U5W0. The rights to use the data needed to purchase this part from additional sources are not owned by the Government and cannot be purchased, developed, or otherwise obtained. There are no authorized substitutes of this item as this is the only item known, tested and approved to meet performance and compatibility requirements.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: The government will synopsize this contract action by posting a synopsis on FedBizOpps.gove as required by FAR Subpart 5.2. This justification and the resulting contract will be posted to FedBizOpps in accordance with FAR 5.3.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A technical review, which consisted of searching several Government databases including:

ITIMP- Reviewed award history and other potential sources of supply, AMC/AMSC code, part number, CAGE code. There is no award history. No other sources were identified.

ERP- Search criteria included part number, design control activity, Cage code, NSN, Nomenclature, AMC/AMSC, AAC, Criticality Coding which all matched with ITIMP

NSEDR- No drawings were available to review.

LMS 21- Reviewed CCF data, source of supply, part number, registered users and requirements.

Google- Conducted a check of the item for additional sources was negative.

Telephone Call to Pole Zero- I spoke to Brad Geisler, Sales and he verified the part number is accurate and identified it as Model Ice 3004.

9. ANY OTHER SUPPORTING FACTS:

It is uneconomical to reverse engineer this part. Data rights are not owned by the Government to be able to solicit this item competitively. Item is essential and must be procured from Pole Zero Corporation. Failure would be unacceptable from the standpoint of safety of personnel and/or equipment as the end item application could not function as intended.

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition:

None at this time.

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION: For reasons set forth in Paragraph (5) and (9), NAVSUP WSS has no plans at this time to compete future contracts for the types of supplies/services covered by this document. If another potential source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible.
