MEMORANDUM FOR SIMPLIFIED ACQUISITIONS (<\$150K)

From: Name and Title **R5382416RCC2075**
To: Contracting Officer, FLC Norfolk
Subj: **USE OF OTHER THAN FULL AND OPEN COMPETITION (SOLE OR LIMITED SOURCE)**
Ref: (a) USS SHIP NAME Procurement Request No(s) USS DEVASTATOR MCM-6 ROLLS ROYCE MATERIALS
(b) Federal Acquisition Regulation 13.106-1

The supplies or services required under this requisition are available from only one or a limited number of responsible sources, and no other type of supplies or services will satisfy the Government's need. There is a reasonable basis to conclude that the Government's minimum needs can only be satisfied by *unique* supplies or services available only from one or a limited number of suppliers with *unique* capabilities. The following justification applies.

An acquisition that uses a brand name (Furuno, Motorola, Vidmar) or other description to specify a particular brand name, product or feature of a product peculiar to one manufacturer does not provide for full and open competition regardless of the number of sources solicited. Beyond that, if you choose to limit the number of sources of a particular brand name/OEM, the procurement is "sole/limited source," which is more difficult to justify. However, if the specification is brand name or equal, then the procurement is competitive.

Describe the item and/or services required:

Repair USS DEVASTATOR Controllable Pitch Propeller (CPP) System Oil Distribution Box.

Due to nature of work to be accomplished, it is requested this work to be awarded to Rolls Royce on a Sole Source basis due to their Technical Representative requires materials procured from Rolls Royce in order to warranty the work being completed.

Delivery Date: 30JUL2016

Known Source(s) for the item or services: List the source(s) (offeror(s)/vendor(s)) who are known to be able to provide the above described item and/or services.

Check which of the following applies:

For Services –

"ONLY ONE RESPONSIBLE SOURCE" (example: OEM technical representative)

"LIMITED SOURCE" (example: multiple OEM authorized technical representatives)

For Supplies –

"BRAND NAME SOLE SOURCE" (example: OEM replacement part)

"BRAND NAME LIMITED SOURCE" (example: multiple OEM authorized part distributors)

1. This determination for single/limited source procurement for this requirement is based on one or more of the following. Select all that apply:

A. _____ RESTRICTIVE RIGHTS. The existence of proprietary rights, limited rights in data, patent rights, copyrights or secret processes make the required item or service available from only one source.

- Explain what is subject to restrictive rights such as proprietary rights, limited rights in data, patent rights, copyrights or secret processes: _____
- As shown on the drawings, who is identified as "owning" the drawing: _____
- Explain why the restrictive rights make the required item or service available from only one source, i.e., why another company still couldn't satisfy the Government's need: _____

B. _____ EXCLUSIVE LICENSING AGREEMENTS. Due to exclusive licensing agreements and arrangements, the required repair/spare parts and/or technical representative services are only available from the Original Equipment Manufacturer (OEM) or ONLY ONE authorized distributor or technical representative.

- Identify the OEM (i.e., Motorola; Schat Harding) _____
- Attach evidence of the exclusive licensing agreement.

C. XXX CRITICAL SHIP EQUIPMENT. The required item is critical ship equipment the failure of which poses a hazard to the ship, the crew and/or the environment.

D. _____ STANDARDIZATION. In accordance with the TYCOM's standardization initiative, only the specified make and model of equipment/parts will satisfy the Government's needs for additional units or replacement items, and only one source is available. (i.e., ship currently has 10 Motorola radios onboard and five more need to be purchased to bring onboard allowances up to 15). Provide the following information:

- Identify Make _____ and Model Number _____
- Identify other ships that have this same Make and Model Number: _____

E. XXX FORM, FIT AND FUNCTION. The required items are direct replacement parts/components for existing equipment and must be compatible in terms of form, fit and function with existing equipment/configurations. Provide the following information:

- Identify Make Rolls Royce Marine Inc. and Model Number 10605700 of existing onboard equipment.
- Describe how new equipment must be compatible with existing ship's configurations (i.e., piping, cabling, etc): To prevent leakage to internal and external and keep the warranty, all materials shall be procured from the OEM.

F. _____ UNIQUE FEATURES. Similar products lack features that are necessary to meet the Government's minimum needs (i.e., Furuno radar vs. Raytheon radar). Provide the following information:

- Identify the required features that are lacking from the competitor's product:

G. _____ OTHER REASONS. Other reasons not identified above (i.e., statutory requirement such as harbor pilot services):
