DEPARTMENT OF THE NAVY
NAVAL FACILITIES ENGINEERING AND EXPEDITIONARY WARFARE CENTER
1000 23RD AVENUE
PORT HUENEME CA 93043-4301

IN REPLY REFER TO:

JA-14-0005

JUSTIFICATION AND APPROVAL FOR LIMITED USE OF OTHER THAN FULL AND OPEN COMPETITION

1. Contracting Activity.

The requiring activity is Naval Facilities Engineering and Expeditionary Warfare Center (NEXWC) Chief Information Office (CIO) Port Hueneme, CA. The contracting activity is NEXWC, Acquisition Department, Port Hueneme, CA. The NEXWC point of contact is Klein Dadacay who can be reached at DSN 551-3873 or commercial (805) 982-3873.

2. Description of the Action Being Approved.

Approval is sought to obtain authority to use limited sources (brand name) to procure Citrix Extended Support, Citrix Software Preferred Technical Relationship Manager (TRM), Citrix Subscription Advantage and Citrix Premier Support from an authorized Citrix reseller.

This authority would allow negotiations with authorized resellers of Citrix.

3. Description of Supplies/Services.

An authorized reseller of Citrix support will provide the following:

-FY14 Citrix Extended Support for Citrix XenApp 4.5 and 5.0 on Win 2003
-FY14 Citrix Software Preferred Technical Relationship Manager
-FY14 Citrix Subscription Advantage XenApp Platinum Edition 4.5 Feature Pack 1 form XenApp Enterprise Upgrade, Citrix Repeater Plugin, Citrix Access Gateway, Universal licenses for eight hundred sixty (860)
-FY14 Citrix Premier Support for XenApp Platinum Licenses for eight hundred sixty (860)

Estimated Dollar Value:

	FY14
O&MN	$[redacted]

Total	$[redacted]

4. Statutory Authority Permitting Other Than Full and Open Competition.

Authority for the use of limited sources when placing orders and restricting consideration to an item peculiar to one manufacturer (e.g., a particular brand name, product, or a feature of a product, peculiar to one manufacturer) is found at FAR 8.405-6(b)(1). The acquisition is conducted under the authority of the Multiple Award Schedule Program (MAS), permitting other than full and open competition as implemented by FAR 8.405-6(b) "Brand Name." The statutory authorities for the MAS Program are Title III of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 251, et esq.) and title 40 U.S.C. 501, Services for Executive Agencies.

5. Rationale Justifying Use of Cited Statutory Authority.

FAR 8.405-6(b)(1) is titled "Limited Sources Justification and Approval" and states:

> Orders placed under Federal Supply Schedules are exempt from the requirements in Part 6. However, an ordering activity must justify its action when restricting consideration in accordance with paragraphs (b) of this section—
>
> (b) *Items peculiar to one manufacturer*. An item peculiar to one manufacturer can be particular brand name, product, or a feature of a product, peculiar to one manufacturer. A brand name item, whether available on one or more schedule contracts, is an item peculiar to one manufacturer.
>
> (1) Brand name specifications shall not be used unless the particular brand name, product, or feature is essential to the Government's requirements, and market research indicates other companies' similar products, or products lacking the particular feature, do not meet, or cannot be modified to meet, the agency's needs.

NAVFAC owns and maintains a Citrix server farm that is used to support all NAVFAC Business systems including GIS, Maximo, Circuits and all database development and administration access. This farm consists of 860 Citrix XenApp licenses that require a support contract. Citrix is imbedded into the IT infrastructure

and it's a critical component for supporting the NAVFAC missions.

The service requires access to compiled code and copyrighted software. Only the entity that owns the intellectual property rights in the software or its authorized resellers can provide software maintenance. Citrix owns the rights; therefore, they are the only provider that can modify the source code using the existing infrastructure.

Existing NAVFAC business systems rely on the application services provided by Citrix XenApp while maintaining the same operating environment as accustomed by the users. The unique applications of Citrix XenApp are:

-Eliminates and reduces the need to install and maintain applications on stand alone computers with business systems that have tens of thousands of users
-Allows specialized desktop applications to run on servers hosted at NITC and eliminates the need for users to learn new applications

In order for the said business systems to maintain the level of service to the NAVFAC user community and warfighter, NITC is required to maintain the services provided by the Citrix XenApp software that is currently hosted in the data center.

There is no technology company other than Citrix that provides the type of support and functionalities required by the business systems, using the existing infrastructure hosted by NITC.

Without valid vendor support for Citrix XenApp, NITC would not be able to comply with current IA policies which require all software and hardware be covered under current and valid maintenance support from their vendors. NITC would not be able to obtain security updates and patches from the vendor unless a valid and current maintenance support is in place.

The Citrix software products have been approved by the Navy Functional Are Manager (FAM), and are registered in the Department of Navy Application and Database Management System (DADMS) associated to NAVFAC for use at NITC. The DADMS identification number is 48164.

Citrix requires all software products to be maintained under annual maintenance. This type of maintenance can only be provided amongst authorized Citrix resellers.

6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable:

General Services Administration (GSA) listed ten (10) authorized resellers that are capable of providing Citrix annual maintenance. No providers other than GSA authorized resellers will be solicited.

7. Determination of Fair and Reasonable Price:

The Contracting Officer has determined that the price for supplies/services covered by this J&A is fair and reasonable.

8. Actions to Remove Barriers to Future Competition:

The Navy will reassess the market to determine whether or not another competitive source has emerged.

CERTIFICATIONS AND APPROVAL

TECHNICAL and REQUIREMENTS CERTIFICATION

I certify that the facts and representations under my cognizance which are included in this Justification and its supporting acquisition planning documents, except as noted herein are complete and accurate to the best of my knowledge and belief.
