[redacted]	[redacted]	[redacted]
(Item Manager's Name)	(Extension)	(Code)
[redacted]	[redacted]	[redacted]
(Technician's Name)	(Extension)	(Code)
[redacted]	[redacted]	[redacted]
(Buyer's Name)	(Extension)	(Code)

1. **IDENTIFICATION OF AGENCY AND/OR CONTRACTING ACTIVITY:**

DLA Maritime at Mechanicsburg.

2. **NATURE/DESCRIPTION OF ACTION:** This J%A is the negotiation and award of a contract through other than full and open competition.

3. **DESCRIPTION OF SUPPLIES/SERVICES:** This J&A covers the acquisition of the following article(s):

Nomen: AFT MATING RING ASSEMBLY
NSN 7HH 5330 01-425-7865
P/N: X82659
Estimated Value [redacted]

Quantity: 1
Cage Code: 0EYA6
Unit Price: [redacted]

Appropriation, Subhead, and Cost Code
AA: 97 00 XX XX 4930 NC1A 00081004 0 050120 7R 000000 8PMT00000000
Undefinitized Contractual Action YES NO: X
No Option Included

Federal Recycling Program Printed on Recycled Paper

4. **IDENTIFICATION OF STATUTORY AUTHORITY:** This J&A is based upon the authority of 10 USC 2304(c)(2), as implemented by Federal Acquisition Regulation 6.302-2

5. **DEMONSTRATION OF THE URGENT NATURE OF THIS ACQUISITION:** This acquisition will be negotiated with: CAGE 0EYA6 Wartsila Defense Inc.

The agency's need for the items described in paragraph 3 is of such unusual and compelling urgency that only Wartsila Defense Inc. is capable of meeting the required delivery schedule because:

The Aft Mating Ring Assembly (NSN 5330-01-425-7865) and Aft Seal Insert Ring (NSN: 5330-01-425-7880) make up a set of seals and are used on propeller shafts of the SSN-21 USS Seawolf Submarine. The submarine main shaft seals are part of the SUBSAFE boundary and prevent water from seeping into the sub. The USS Seawolf is scheduled to be dry docked in December 2016 and undergo a Depot Modernization Program at Puget Sound Naval Shipyard commencing 16 December 2016. Two sets of seals are required for the overhaul. Naval Supply Weapon System Station (NAVSUP WSS) was able to provide one and a half sets through the repair process however one repair unit failed and now we must buy new. This Aft Mating Ring Assembly is required to complete the two sets. The Aft Mating Ring Assembly currently has an AMC code of "3C".

The two seal sets are urgently needed to prevent a work stoppage at the shipyard. Wartsila Defense Inc. (large business) is the only source of supply that can successfully manufacture and that can have the Aft Mating Ring Assembly at the shipyard by the required delivery date of December 16, 2016.

Wartsila Defense (large business) estimated a lead-time of 100 days for production. Wartsila does not have any in stock. Wartsila's Aft Mating Ring Assembly are acceptable because only Wartsila Defense Inc can meet the needs of the Navy and Wartsila is currently the only authorized approved source by the ISEA and technical warrant holder at this time. Wartsila has been successfully providing this part to the Navy and Navy Prime Contractor Shipbuilders for all submarines since 1998.

6. **GOVERNMENT POINT OF ENTRY NOTICE/POTENTIAL SOURCES:**

Synopsis of the contract was waived in accordance with FAR 5.202(a)(2).

7. **DETERMINATION OF FAIR AND REASONABLE COST:** The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. Certified cost and pricing data will be obtained and used to ensure reasonableness, completeness and realism of proposed costs as required.

8. **DESCRIPTION OF MARKET SURVEY:** A technical review has been conducted, and based on this review, the contracting officer determines there are no other identifiable sources. Based on market research, the contracting officer has determined that only Wartsila Defense Inc. can meet the Government requirements.

9. **ANY OTHER SUPPORTING FACTS:** Failure to obtain timely delivery of the required supplies will result in extensive costs for the extended dry docking period as well as the impact on deployment schedule of the submarine.

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition:

None.

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION:

NAVSEA and NAVSUP are currently working on the development of a competitive specification to allow future competition however at this time no other source has completed the requirements to become an approved authorized source with the ISEA and technical warrant holder. Wartsila is the sole source vendor for submarine main shaft seals. Unless qualified by NAVSEA, no other source is allowed to bid on future contracts.

12. STATEMENT OF DELIVERY REQUIREMENTS:

(a) The required delivery date (month/year) is: December 16, 2016

(b) Ship To: Puget Sound Naval Shipyard & IMF
1400 Farragut Ave., Bldg 514
Bremerton, WA 98314-5001

13. REFERENCE TO THE APPROVED ACQUISITION PLAN: An Acquisition Plan is not required for this acquisition.

14. DOCUMENTATION FOR SPARES/REPAIR PARTS ACQUISITION: The specifications for the above article have been reviews and reflect the minimum needs of the Government.
