4. IDENTIFICATION OF STATUTORY AUTHORITY: This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1. The supplies required by the agency are only available from one responsible source or a limited number of sources and no other type of supplies will satisfy agency requirements.

The current Acquisition Method Code (AMC/AMCS) is	3P	. For the reasons explained below, these

The rights to use the data needed to purchase this part from additional sources are not owned by the Government and cannot be purchased, developed, or otherwise obtained. There are no authorized substitutes of this item as this is the only item known, tested and approved to meet performance and compatibility requirements. The approved source was determined during the Research and Development Stage, Milestone C of the Acquisition Process.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: The government will synopsize this contract action by posting a synopsis on FedBizOpps.gove as required by FAR Subpart 5.2. This justification and the resulting contract will be posted to FedBizOpps in accordance with FAR 5.3.

When certified cost and pricing data is obtained it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A technical review, which consisted of searching several Government databases including:

ITIMP- Reviewed award history and other potential sources of supply, AMC/AMSC code, part number, CAGE code. Award history has been sole source to Pole Zero. No other sources were identified.

NSEDR- No drawings were available to review.

LMS 21- Reviewed CCF data, source of supply, part number, registered users and requirements.

Google- Conducted a check of the item for additional sources was negative.

In accordance with FAR Part 10-Market Research, a Source Sought Notification was posted on FBO.GOV between Oct 30, 2015 and Nov 4[redacted], 2015 seeking additional sources for this requirement. The posting yielded no responses.

9. ANY OTHER SUPPORTING FACTS:

It is uneconomical to reverse engineer this part. Data rights are not owned by the Government to be able to solicit this item competitively. 11.
