1. IDENTIFICATION OF AGENCY AND/OR CONTRACTING ACTIVITY:

DLA Maritime at Mechanicsburg.

2. NATURE/DESCRIPTION OF ACTION: This J&A is for the negotiation and award of a contract through other than full and open competition.

3. DESCRIPTION OF SUPPLIES/SERVICES: This J&A cover the acquisition of the following article(s):

Nomen	Cable Assembly, Special	Quantity	14
NSN	6150-01-547-6543	Cage Code	17476/63127
P/N	1155130-108	Unit Price	[redacted]

Estimated Value (include option [redacted]

Appropriation, Subhead and Cost Code:
97 00 XX XX 4930 NC1A 000 81004 0 050120 7R 000000 8PMT00000000

Option: Yes 100 % Days

Item description required for all items: special purpose multifunction mast mounted cable for the OE-538/BRC antenna which provides communications, navigation, identification friend or foe, capability across multiple radio frequency spectrums aboard submarines.

Spares C1 J&A
Revised 11/13

	N0010414XD434 N0010414XD926 N0010415X4633	
REQUISITION NUMBER/PD:	N0010415X6190	**FOLDER NUMBER:** 14226-0112

4. IDENTIFICATION OF STATUTORY AUTHORITY: This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1. The supplies required by the agency are only available from one responsible source or a limited number of sources and no other type of supplies will satisfy agency requirements.

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:

The current Acquisition Method Code (AMC/AMCS) is	1C	For the reasons explained below, these

Supplies are only available from the following source(s): 17476 (Teledyne Instruments Inc.)/63127 DCX-CHOL INC

AMC 1. Suitable for competitive acquisition.

AMSC C. This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing knowledge by the qualified source(s) require acquisition of the part from the approved source(s). The approved source(s) retain data rights, manufacturing knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application.

Vendors must meet the requirement of the part being S9320-AM-Pro20/30 certified with approval from the Government engineering activity having jurisdiction over the part in the intended application. Naval Undersea Warfare Center, CAGE 50225 is the current design control activity for this item and have only approved Teledyne and DCX-CHOL as an approved source of supply. There are no other known sources approved by CAGE Code 50225 able to provide this component. Item has been identified as non-aviation safety critical item, whose failure could result in injury and/or death, or loss of equipment.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: The government will synopsize this contract action by posting a synopsis on FedBizOpps.gov as required by FAR Subpart 5.2

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A technical review, which consisted of searching several Government databases including ITIMP, FLIS and ERP, has been completed on this item. Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, AMC/AMSC, AAC, Criticality Coding, recorded approved sources of supply, historical sources of supply and past contracts. Based on this market research, the contracting officer has determined that the only known manufacturing sources are 17476 – Teledyne Instruments and 63127 DCX-CHOL INC. A sources sought base notice was posted to FedBizOpps on 12 Jun 2016 and closed on 17 Jun 2016 inviting potential sources to fill out a market survey and express their interest in providing an offer on this requirement to be forwarded to the design and technical authority for approval. No responses were received during the opening period.

9. ANY OTHER SUPPORTING FACTS: Drawings now available since previous J&A

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition:

None

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION: The Government will include a clause in the solicitation that provides that the government will consider alternate offers, and that alternate offerors should submit a source approval request (SAR) package that will be referred to the cognizant engineering activity. If, due to mission requirements, the current procurement cannot be delayed in order to allow sufficient time for the engineering activity to determine whether to approve the alternate offer, the SAR package will be considered for future awards. It

is determined the efforts to improve competition as cited in the previous Justification and Approval dated June 23, 2009 utilizing the authority of 10 USC 2304(c)(1) as implemented by Federal Acquisition Regulation 6.302-1 were completed.
