Revised 11/13

4. IDENTIFICATION OF STATUTORY AUTHORITY: This J&A is based upon the authority of 10 USC 2304(c)(1), as implemented by Federal Acquisition Regulation 6.302-1. The supplies required by the agency are only available from one responsible source or a limited number of sources and no other type of supplies will satisfy agency requirements.

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS:

The current Acquisition Method Code (AMC/AMCS) is	3B	For the reasons explained below, these

Supplies are only available from the following source: 0F1X1 – Ordnance Technology Service

AMC 3. Acquire, for the second or subsequent time, directly from the actual manufacturer.
AMSC B - This part must be acquired from a manufacturing source(s) specified on a source control or selected item drawing as defined by the current version of DoD-STD-100.
Suitable technical data, Government data rights, or manufacturing knowledge are not available to permit acquisition from other sources, nor qualification testing of another part, nor use of a second source part in the intended application. Although, by DoD-STD-100 definition, altered and selected items shall have an adequate technical data package, data review discloses that required data or data rights are not in Government possession and cannot be economically obtained. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources exist, AMCs 1 or 2 are valid.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES: The Government will synopsize this contract action by posting a synopsis on FedBizOpps.gov as required by FAR Subpart 5.2.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. When certified cost and pricing data is obtained it will be used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A technical review, which consisted of searching several Government databases including ITIMP, FLIS and ERP, has been completed on this item. Search criteria included Part Number, Design Control Activity, Cage Code, NSN, Nomenclature, AMC/AMSC, AAC, Criticality Coding, recorded approved sources of supply, historical sources of supply and past contracts. A sources sought base notice was posted to FedBizOpps on 6/21/2016 and closed on 6/28/2016 inviting potential sources to fill out a market survey and express their interest in providing an offer on this requirement to be forwarded to the design and technical authority for approval. No responses were received during the opening period of the sources sought notice. Based on this market research, the contracting officer has determined that the only known approved manufacturing source is CAGE Code 0F1X1 (Ordnance Technology Service).

9. ANY OTHER SUPPORTING FACTS:

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition: *None*

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION: The solicitation will include a clause providing that the Government will consider alternate offers, and that alternate offerors should submit a source approval request (SAR) package that will be referred to the cognizant engineering activity. If, due to mission requirements, the current procurement cannot be delayed in order to allow sufficient time for the engineering activity to determine whether to approve an alternate offer, the SAR package will be considered for future awards. This item will also be reviewed under the NAVSUP WSS replenishment parts program. Should it be determined that the item can be broken out, future acquisitions will be competitive. This acquisition will be synopsized via FedBizOpps and any firm requesting a copy of the solicitation will be provided one. It is determined that the efforts to improve competition as cited in the previous Justification and Authority dated 1/22/2015, citing the authority of 10USC2304(c)(1) as implemented by FAR 6.302-1 were completed.
