11. **ACTIONS TO REMOVE BARRIERS TO COMPETITION:**

The NAVSUP Weapon Systems Support (WSS) Source Development Department has completed a full screen review on the subject Electric Brake. The AMC/AMSC is "3B", source controlled item and this part must be acquired from a manufacturing source(s) specified on the source control or selected item drawing as defined by the current version of DoD-STD-100. Currently the only approved source of supply is Triumph Group Operations Inc. (1SR57). Suitable technical data is not available to the Government to qualify another source of supply. Also the subject item is a Critical Item and requires engineering source approval by the design control activity Northrop Grumman (26512) in order to maintain the quality of the part prior to contract award. Based on the above information, competition is not feasible at this time. No other sources have expressed an interest in becoming an approved source of supply for the subject item to the Source Development Department. To promote competition the NAVSUP WSS will continue to encourage manufacturers with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority Northrop Grumman (26512). Also future requirements will be advertised in the FedBizOps website (www.fedbizops.gov).
