SUMMARY OF CHANGES

SECTION SF 30 - BLOCK 14 CONTINUATION PAGE

The following have been added by full text:

AMENDMENT 0003

1. This amendment is hereby issued to provide clarifications and answers to Pre-Proposal Inquiries (PPI) received in response to the RFP.

QUESTION #1. Seed Project Statement of Work (SOW), 1.3 states "Reuse existing asphalt as base material for compaction before resurfacing with hot mix asphalt." Three inches of grinding and then placement of the grindings as a subbase will raise the current roadway elevation by more than 3". Is this the government's intent and if so, how will the transition to existing asphalt be accomplished? Will we need to excavate 3" more below the grinding level to install the grinding subbase or reduce/taper the grindings subbase down to zero to "flush out" the transitions.

ANSWER #1. The government's intent is for you to use the ground asphalt to bring the bed to an appropriate height so there is a smooth surface that matches existing.

QUESTION #2. Seed Project – There are several structures within the roadway. Are we to raise the structure rims to new paving elevations or pave to the existing structure elevations?

ANSWER #2. Yes, structures (manholes, water valve boxes) will be accessible.

QUESTION #3. Seed Project – Will the contractor be allowed to demo the full width of the roadway?

ANSWER #3. It is the intent of this project to ground the entire width and length of the repair and to have 2' shoulders throughout the site.

2. This amendment is hereby amends the Statement of Work (SOW), Section 1.3, Page 1, Objectives.

The Statement of Work, Revision #1 is hereby incorporated into RFP N44255-16-R-9004.

SECTION 00010 - SOLICITATION CONTRACT FORM

The Issued By organization has changed from

NAVFAC NORTHWEST
1101 TAUTOG CIRCLE
