CONTROL NUMBER 2016-054

N00406-16-T-0555

JUSTIFICATION AND APPROVAL FOR SOLE SOURCE PROCUREMENT Under Simplified Procedures for Certain Commercial Items (FAR 13.5)

1. **Contracting Activity.**

NAVSUP Fleet Logistics Center Puget Sound (FLCPS)

2. **Description of Action Being Approved.**

This procurement will be a Firm-Fixed Price (FFP) Supply Type Commercial Item (CI) contract utilizing 12 and 13.5.

3. **Description of Supplies/Services.**

This requirement is for a series of Motorola radios and associated equipment in various quantities to include APX700XE Digital Portable Radio to include: Model 3 Option, Dual Band Operation, Astro Digital CAI Operation, Astro 25 OTAR W/ Multi key operation, AES Encryption, Warranty, UHF Primary Band, VHF Secondary band, NIMH Impres 200MAH Delta T, Public Safety Yellow Housing, Smart zone operation, p25 9600 Baud Trunking, Programming over P25, P25 Link layer Authorization. This effort is in support of the various Fire Departments within the Puget Sound Region. Estimated cost is (b) (5) using FY16 OM&N funds.

4. **Statutory Authority Permitting Sole Source.**

41 U.S.C. 1901 – A sole source acquisition under the authority of the simplified acquisition procedures for certain commercial items, as implemented by FAR 13.501(a).

5. **Rationale Justifying Use of Cited Statutory Authority.**

Award of a contract on a brand name basis to Motorola or authorized distributors. Navy Region Northwest Fire and Emergency Services Department has standardized their communications on Motorola APX7000XEs. Procuring additional APX7000XE dual band radios will ensure that

that replacement radios are identical with the existing inventory of Motorola radios, batteries, charging stations, lapel microphones and other peripherals and are not compatible with any other brand of radio, all manufactured by Motorola for use with Motorola radios. This standardization has eliminated the need for IT to provide configuration management of different make/models of Fed Fire radios. To manage a new brand of product, IT would need to procure and maintain additional radios and radio specific programming software licenses for the different make/models. Additional manpower would be required to code plug development, run configuration testing, and to train program personnel. This would complicate radio subscriber deployment as well as any future in-field changes to the Fed Fire radio programming template. This would be too cost prohibitive, too difficult to manage and would take too long and would not support the fire departments.

6. **Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable.**

A synopsis of the proposed procurement will be published on the NECO website as a brand name requirement open to all Motorola authorized distributors.

7. **Determination of Fair and Reasonable Cost.**

The contracting officer has determined the anticipated cost to the Government of the supplies/services covered by this J&A will be fair and reasonable.

8. **Actions to Remove Barriers to Future Competition.**

For the reasons set forth in Paragraph 5, NAVSUP Fleet Logistics Center Puget Sound has no plans at this time to compete future contracts for the types of supplies/services covered by this document. If another potential source emerges, NAVSUP Fleet Logistics Center Puget Sound will assess whether competition for future requirements is feasible. At this time this is a one-time buy.

CERTIFICATIONS AND APPROVAL

TECHNICAL/REQUIREMENTS CERTIFICATION

I certify that the facts and representations under my cognizance which are included in this Justification and its supporting acquisition planning documents, except as noted herein are complete and accurate to the best of my knowledge and belief.

Technical Cognizance:

(b) (5)
Signature: [Redacted] Daniel Hilliard 360-315-2894 26JUL2016
Name (Printed) Phone No. Date

Requirements Cognizance:
