The AMC/AMSC is "2H" with (05606) General Dynamics Armament and (62983) Eaton Aerospace LLC. as the only approved sources on the Hydraulic Drive unit. No other sources have expressed an interest in manufacturing the subject item to the Source Development Department. The subject item is considered critical to safety of flight, therefore, additional sources must obtain engineering source approval prior to contract award. The NAVSUP Weapon Systems Support (WSS) will continue to encourage manufactures with the expertise to manufacture the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority. Future requirements will be advertised in the FedBizOpps website (www.fedbizopps.gov) in order to encourage potential suppliers to submit Source Approval Requests.
