18. **REQUIRED** - DESCRIPTION OF THE ITEM OF SERVICE REQUIRES
 The Attack (a Digital Fire Training System) includes: waterproof panel featuring thermal sensors that interact with a hose line and vary digital flames in response to realistically recreated seat of a fire. Able to choose from Quick-Release Wall Mount or Weighted Base for the Attack Panel. Fill the Weighted Base's collapsible tank with up to 50 gallons of water to keep the panel upright and stable during intense training evolutions. Set-up Remote - start and stop evolutions as well as control the class of fire, difficulty, audio and smoke bursts. Smoke Generator 4000 - Smart controls and an integrated smoke liquid tank enable the SG4000 to produce smoke continuously for hours. Smoke Liquid - 20L Water Resistant Case, SG4000 – Water and shock resistant case houses a GFCI power supply and a repeater station to extend the range of add-on panels and the Industrial Remote. Transport Bag for Weighted Base/Water Tank - The rugged transport bag allows the base and water tank to be safely stored and transported. Transport Case for Attack Digital Panel - The transport case allows the panel to be safely stored and shipped. Industrial remote - This waterproof remote operates via wi-fi, is suited for intense training evolutions and can be operated with a gloved hand.

19. **REQUIRED** - SPECIFIC CHARACTERISTICS OF THE MATERIAL OR SERVICE THAT LIMIT THE AVAILABILITY TO A SOLE SOURCE [UNIQUE FEATURES, FUNCTION OF THE ITEM, ETC.]. DESCRIBE IN DETAIL WHY ONLY THIS SUGGESTED SOURCE CAN FURNISH THE REQUIREMENTS TO THE EXCLUSION OF OTHER SOURCES
 The Attack Digital Fire Trainer package will enhance the training for fire operations tremendously for realistic type fires. This trainer will save resources (money/time) by eliminating the constant need of reigniting combustible materials or liquefied petroleum gas (LPG). This environmentally friendly training device can be utilized in multiple situations where the traditional fire methods (i.e. wood or LPG) cannot be used (such as the interior of the Ships or Aircrafts assigned to our department). Furthermore, the convenience of a portability unit will lessen vehicle movements normally associated with transporting the above stated traditional fire methods within the island which will ultimately save fuel, time and resources throughout the department. Market research indicates the Attack is the only one of its kind to date.

20. **IF APPLICABLE** – THE REQUESTED MATERIAL OR SERVICE REPRESENTS THE MINIMUM REQUIREMENTS OF THE GOVERNMENT. [IF CHECKED, ENTER EXPLANATION OR MINIMUM REQUIREMENTS BELOW]
 Please see box above.

21. These are direct replacement parts or components for existing equipment (Check if applicable)

22. IF APPLICABLE – THE MATERIAL OR SERVICE MUST BE COMPATIBLE IN ALL ASPECTS (FORM, FIT, FUNCTION) WITH EXISTING SYSTEMS PRESENTLY INSTALLED/PERFORMING. DESCRIBE THE EQUIPMENT/FUNCTION YOU HAVE NOW AN HOW THE NEW ITEM OR SERVICE MUST COORDINATE, CONNECT, OR INTERFACE WITH THE EXISTING SYSTEM

23. IF APPLICABLE – A PATENT, COPYRIGHT, OR PROPRIETARY DATA LIMITS COMPETITION. THE PATENT, COPYRIGHT, OR PROPRIETARY DATA IS:

BullEx is the sole source provider for the Attack which is patented and cannot be procured through any other vendor.

24. OPTIONAL - OTHER INFORMATION TO SUPPORT A SOLE SOURCE BUY:

The Attack represent the latest advancements in fire training technology and is the only firefighter training system using self-generating digital flames that can interact with a hose line. The Attack's realistic, self-generating digital flames respond directly to the trainee's actions. The Attack system includes a waterproof panel with built-in thermal sensors, integrated smoke generation, and built in sound to create a realistic training atmosphere.

The thermal sensors detect where water from a hose line is being placed on the panel and vary the flames in response. Multiple panels can be connected and communicate seamlessly. Instructors can program where the seat of the fire is located, as well as the difficulty and class of fire.

I CERTIFY THAT STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE, ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
