2. **NATURE/DESCRIPTION OF ACTION:** This J&A is for the negotiation and award of a contract through other than full and open competition.

3. **DESCRIPTION OF SUPPLIES/SERVICES:** This J&A covers the acquisition of the repair of the following article(s):

Nomen	CONTROL UNIT,DIGITA	Quantity	[redacted]
NSN	2995015272298XQ	Cage Code	99207

5. **DEMONSTRATION OF CONTRACTORS UNIQUE QUALIFICATIONS:** The current Repair Method Code (RMC/RMSC) is 3C. This acquisition will be negotiated with

BAE SYSTEMS CONTROLS INC (63760)

Only the above will be solicited because the articles to be acquired are highly specialized parts, designed and manufactured by a non-Government activity and the technical data required for repair by other than the above is not available.

6. **FEDERAL BUSINESS OPPORTUNITIES/POTENTIAL SOURCES:** The proposed contract was/will be synopsized in the FedBizOpps website for government wide point of entry.

7. **DETERMINATION OF FAIR AND REASONABLE COST:** The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining reasonableness. Certified cost and pricing data will be obtained and used to ensure reasonableness, completeness and realism of proposed costs as required.

8. **DESCRIPTION OF MARKET SURVEY:** A technical review has been made to determine and identify all known sources.

9. **ANY OTHER SUPPORTING FACTS:** The articles to be repaired are complex and must meet critical operational and reliability requirements, the achievement of which requires unique production techniques and extensive and/or sophisticated testing, and the government has not yet acquired or developed the technical data.

10. **LISTING OF INTERESTED SOURCES:** The following sources have expressed, in writing, an interest in this acquisition. [redacted]

No other sources have expressed an interest in repairing the subject item to the Source Development Department. Available data has not been found adequate to support competitive acquisition. The subject item is considered critical to safety of flight: therefore, additional sources must obtain engineering source approval prior to contract award. NAVICP will continue to encourage manufacturers with the expertise to repair the subject item to submit a complete technical data package for review and source approval by the appropriate engineering source approval authority, namely, NAVICP, NADEP or NAVAIR. Future requirements will be advertised in the FedBizOpps website (www.fedbizopps.gov) and the NAVICP Repair Deficit Listing in order to encourage potential suppliers to submit Source Approval Requests.
