

J-1502000-52 Locksmith Support Services at the National Naval Medical Center (NNMC)

(Ver 1.0, May 06)

The service provider will provide all necessary labor, materials, and equipment to provide locksmith services basewide at the National Naval Medical Center (NNMC). Government will furnish lists of specific work to be done, and will approve all keys, locks and door hardware prior to replacement and installation.

Work can include but is not necessarily limited to:

- 1 Install, repair, rebuild, and service mechanical or electrical locking devices, using hand tools and special equipment.
- 2 Install new locking devices.
- 3 Disassemble locks, such as padlocks, safe locks, and door locks, and repair or replace worn tumblers, springs, and other parts.
- 4 Re-key facility locks.
- 5 Remove broken keys from locks.
- 6 Cut new or duplicate keys, using keycutting machine.
- 7 Insert new or repaired tumblers into lock to change combination.
- 8 Move lockpick in cylinder to open door locks without keys.
- 9 Open safe locks by drilling.
- 10 May keep records of company locks and keys.
- 11 Install and repair door closers. Install and repair panic bars.
- 12 After repair work is complete, indicate that work has been completed and return the Locksmith Lists to the Government.
