SOLICITATION

NOTE: In sealed bid solicitations "offer" and "offeror" mean "bid" and "bidder".

10. THE GOVERNMENT REQUIRES PERFORMANCE OF THE WORK DESCRIBED IN THESE DOCUMENTS *(Title, identifying no., date):*

Solicitation N40085-15-R-8706, Design/Build Construction Services for P-816 Demolition of Central Steam System at Naval Station Great Lakes, Illinois

Competition Requirement: Full and Open. Best Value Trade-Off. Two Phase Design Build Selection Procedure; Type of Contract: Firm-Fixed Price; Budget for Construction = \$18,000,000; NAICS 238910

Proposals are due Thursday, January 22, 2015, 2:00 P.M. EST. POC for this procurement is Alex Holmes, alex.holmes@navy.mil Specifications and Drawings are listed as separate documents and are not provided for Phase I

A Pre-Proposal Site Visit and instructions are in Section 00010 of this solicitation. Cut-off date for Requests for Information (RFIs) is January 15, 2015. RFIs should be sent via email to alex.holmes@navy.mil Mail Proposals to: Naval Facilities Engineering Command Mid-Atlantic, Northeast IPT, 9742 Maryland Avenue, Bldg. Z-144, Norfolk, VA 23511-3095. Attn: Alex Holmes. Express deliver proposals to: Naval Facilities Engineering Command Mid-Atlantic, Northeast IPT, 9742 Maryland Avenue, Bldg Z-144, Norfolk, VA 23511-3095. Attn: Alex Holmes. Hand deliver proposals to the Express Delivery address on the 1st Floor, Room 109.

All drawings, specifications, and amendments will be posted to the (NECO) website at www.neco.navy.mil.

11. The Contractor shall begin performance within 15 calendar days and complete it within 850 calendar days after receiving award, notice to proceed. This performance period is mandatory, negotiable. (See FAR 52.211-10 _____.)

12 A. THE CONTRACTOR MUST FURNISH ANY REQUIRED PERFORMANCE AND PAYMENT BONDS? <i>(If "YES," indicate within how many calendar days after award in Item 12B.)</i> <input checked="" type="checkbox"/> YES <input type="checkbox"/> NO	12B. CALENDAR DAYS 15
--	--------------------------

13. ADDITIONAL SOLICITATION REQUIREMENTS:

A. Sealed offers in original and 5 copies to perform the work required are due at the place specified in Item 8 by 02:00 PM (hour) local time 22 Jan 2015 (date). If this is a sealed bid solicitation, offers must be publicly opened at that time. Sealed envelopes containing offers shall be marked to show the offeror's name and address, the solicitation number, and the date and time offers are due.

B. An offer guarantee is, is not required.

C. All offers are subject to the (1) work requirements, and (2) other provisions and clauses incorporated in the solicitation in full text or by reference.

D. Offers providing less than 180 calendar days for Government acceptance after the date offers are due will not be considered and will be rejected.

Section 00010 - Solicitation Contract Form

ITEM NO	SUPPLIES/SERVICES	QUANTITY	UNIT	UNIT PRICE	AMOUNT
0001	Base Price FFP Price for the entire work, complete in accordance with the requirements of the RFP including drawings and specifications, but excluding work described in Items 0002, 0003, 0004, and 0005 FOB: Destination				
NET AMT					<hr/>

Section 00100 - Bidding Schedule/Instructions to Bidders

BID SCHEDULE
PRICE PROPOSAL FORM

The proposed price shall be the lump sum price for the following items:

ITEM 0001 - BASE PRICE - Price includes the following:

0001: Price for the entire work, complete in accordance with the requirements of the RFP including drawings and specifications, but excluding work described in Items 0002, 0003, 0004, and 0005.

TOTAL PRICE FOR ITEM 0001: \$ _____

ITEM 0002 - OPTION ITEM 1: Price includes the following:

Price for provision of design and demolition of Building B3000, including hazardous material abatement.

TOTAL PRICE FOR ITEM 0002: \$ _____

ITEM 0003 - OPTION ITEM 2: Price includes the following:

Price for provision of design and demolition of Building B3511, including hazardous material abatement.

TOTAL PRICE FOR ITEM 0003: \$ _____

ITEM 0004 - OPTION ITEM 3: Price includes the following:

Price for provision of demolition of Steam Pits Structure and Piping described in RFP PART 1.2.2 and 3.1.3.4. Abatement, pipe capping and sealing is to be included in Item 0001 – Base Price

TOTAL PRICE FOR ITEM 0004: \$ _____

ITEM 0005 - OPTION ITEM 4: Price includes the following:

Price for provision of Hazardous Material Abatement of piping located in the tunnel described in RFP PART 3 1.2 and 3.1.3.3

TOTAL PRICE FOR ITEM 0005: \$ _____

TOTAL PRICE FOR ALL ITEMS [0001, 0002, 0003, 0004, AND 0005]: \$ _____

CONTRACT LINE ITEM NOTES

General

1. Award will be made on the total sum of Item 0001, 0002, 0003, 0004, and 0005. Offerors shall enter unit prices and/or extended totals in spaces provided. If there is a difference between a unit price and the extended total, the unit price will be held to be the intended price and the total recomputed accordingly. If an offeror provides a total but fails to enter a unit price, the total divided by the specified quantity will be held to be the intended unit price.
2. FAR 52.217-5, Evaluation of Options (Jul 1990) – Except when it is determined in accordance with FAR 17.206 (b) not to be in the Government's best interest, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).
3. The Government may reject an offer as nonresponsive if it is materially unbalanced as to prices for the basic requirement and the option quantities. An offer is unbalanced when it is based on prices significantly less than cost for some work and prices which are significantly overstated for other work.
4. The Government reserves the unilateral right to award Items 0002, 0003, 0004, 0005 to the contractor at the proposed price within 365 calendar days after contract award. A firm fixed proposed price is required for Items 0001, 0002, 0003, 0004, and 0005. No provision is made for economic price adjustment. If Options are exercised, the contract completion date remains 850 calendar days after award of the contract (includes 15 days for bond approval).

DESCRIPTION OF WORK

1. This acquisition will result in the award of a Firm-Fixed Price (FFP), contract for construction services. The contract will be procured using negotiated procedures, as it has been determined in accordance with FAR 6.401 to be the most appropriate method of contracting for the subject project. This acquisition will use the two-phase design-build selection procedures, consisting of one solicitation covering both phases, and will result in a Firm-Fixed Price (FFP) contract.

2. Phase One of the solicitation will be conducted in accordance with FAR Part 36.3. The Phase One written technical proposal will address Technical Approach, Recent Relevant Experience of the Firm, Past Performance, and Safety. The Phase One evaluation will result in a determination of the most highly qualified Offerors. Only these Offerors will be requested to submit a Phase Two proposal. A multiple number of Offerors may be selected to submit a Phase Two proposal; however, the Contracting Officer reserves the right to limit the number of offers selected to submit Phase II proposals.. ***No Plans, Specifications or Drawings will be provided for Phase I proposal requests. No site visit will be scheduled for Phase I. These items will be made available to those offerors invited to provide Phase II proposals.***

Phase Two of the solicitation shall be comprised of a written technical and price proposal, which will be evaluated separately in accordance with Part 15. The Phase Two written technical proposal will address the Offeror's Technical Solution and Small Business Utilization. The Phase Two written price proposal shall set forth the Offeror's price for this acquisition. Phase Two will require submission and evaluation of Evaluation Factors specifically designated as Phase Two

Factors. Ratings for these Factors will be combined with the ratings for factors evaluated during Phase I to determine a composite rating and ranking for each Offeror participating in Phase II. An award decision will be made on the basis of the overall rating of all factors (i.e. those from Phase I and Phase II).

3. Project Description: Naval Station Great Lakes (NSGL) is in the process of implementing a major infrastructure upgrade that will provide a new high efficiency building level heating system in place of the existing central steam system for all identified facilities. The upgrade converts all of the existing facilities at Naval Station Great Lakes serviced by the Navy central steam system from a central steam heat source to a building-level heat source and demolishes the existing steam generation and associated distribution systems.

The current project is specific to the demolition operations of the steam distribution system on base including Building B11 with ancillary structures and satellite buildings B3000, B3217, and B3511. Included in the RFP, High Voltage shops in building 811 will be moved to a new space in building 11 after building 811 is demolished.

INSURANCE REQUIREMENTS

a. The Contractor shall procure and maintain during the entire period of performance under this contract, the following minimum insurance coverage:

- 1) Comprehensive General Liability: \$500,000 per occurrence
- 2) Automobile Liability: \$200,000 per person, \$500,000 per occurrence, \$20,000 per occurrence for property damage
- 3) Workman's Compensation: As required by Federal and State workers' compensation and occupational disease laws
- 4) Employer's Liability Coverage: \$100,000 except in states where workers compensation may not be written by private carriers
- 5) Others as required by the State of Rhode Island

b. Prior to commencement of work, the contractor shall furnish to the Contracting Officer, a certificate or written statement of the above required insurance. The policies evidencing required insurance shall contain an endorsement to the effect that cancellation or any material change in the policies adversely affecting the interests of the Government in such insurance shall not be effective for such period as may be prescribed by laws of the state in which this contract is to be performed, and in no event less than thirty (30) days after written notice thereof to the Contracting Officer.

EVALUATION CRITERIA

A. BASIS FOR AWARD

1. The Government reserves the right to eliminate from consideration for award any or all offers at any time prior to award of the contract; to negotiate with offerors in the competitive range; and to award the contract to the offeror submitting the proposal determined to represent the best value—the proposal most advantageous to the Government, price and other factors considered.

2. As stated in the solicitation, the Government intends to evaluate proposals and award a contract without discussions with offerors (except clarifications as described in FAR 15.306(a)). The Government reserves the right to conduct discussions if the Contracting Officer later determines them to be necessary. In addition, if the Contracting Officer determines that the number of proposals that would otherwise be in the competitive range exceeds the number at which an efficient competition can be conducted, the Contracting Officer may limit the number of proposals in the competitive range to the greatest number that will permit an efficient competition among the most highly rated proposals.

3. The tradeoff process is selected as appropriate for this acquisition. The Government considers it to be in its best interest to allow consideration of award to other than the lowest priced offeror or other than the highest technically rated offeror.

4. As stated in the solicitation, all technical factors when combined are of equal importance to the performance confidence assessment (past performance) rating; and all technical factors and the performance confidence assessment (past performance) rating, when combined are approximately equal to price.

5. For Two-Phase DB procurements, Factors 1, 2, 3 and 4 will be evaluated in Phase I and Factors 5 and 6 will be evaluated in Phase II. Factor 1 will only be rated Acceptable or Unacceptable. If an Offeror is rated Unacceptable in Factor 1, then they will not be considered for Phase II. In making the best value award decision after Phase II, the government will consider Factors 2, 3, 4, 5, 6, and price. The relative order of importance of the non-cost/price evaluation factors is that technical factors are equal to each other and when combined are equal importance to the performance confidence assessment (past performance). The combined non-cost/price factors are approximately equal to price. Subfactors 6A and 6B are equal in importance to each other. A maximum of five (5) offerors will be selected to submit Phase II proposals. The proposal due date for Phase II will be established by amendment after the completion of Phase I.

6. Any proposal found to have a deficiency in meeting the stated solicitation requirements or performance objectives will be considered ineligible for award, unless the deficiency is corrected through discussions. Proposals may be found to have either a significant weakness or multiple weaknesses that impact either the individual factor rating or the overall rating for the proposal. The evaluation report must document the evaluation board's assessment of the identified weakness(s) and the associated risk to successful contract performance resulting from the weakness(s). This assessment must provide the rationale for proceeding to award without discussions.

B. ADJECTIVAL RATINGS/DESCRIPTIONS

1. The technical rating reflects the degree to which the proposed approach meets or does not meet the minimum performance or capability requirements through an assessment of the strengths, weaknesses, significant weaknesses, deficiencies, and risks of a proposal.

a. A combined technical/risk evaluation considering risk in conjunction with the strengths, weaknesses, significant weaknesses, and deficiencies in determining technical ratings shall be used. The technical risk evaluation shall utilize the combined technical/risk ratings listed in the following table. Adjectival ratings and rating descriptions will be used to assign an overall rating to each technical proposal and to assign a rating for each technical factor and subfactor. Use upper case letter ratings for major technical factors as well as the overall rating. Use lower case letter ratings for non-cost/price subfactors. The addition of plus (+) or minus (-) to an adjective rating is not allowed.

Table 1. Combined Technical/Risk Ratings	
Rating	Description
Outstanding (O)	Proposal meets requirements and indicates an exceptional approach and understanding of the requirements. Strengths far outweigh any weaknesses. Risk of unsuccessful performance is very low.
Good (G)	Proposal meets requirements and indicates a thorough approach and understanding of the requirements. Proposal contains strengths which outweigh any weaknesses. Risk of unsuccessful performance is low.
Acceptable (A)	Proposal meets requirements and indicates an adequate approach and understanding of the requirements. Strengths and weaknesses are offsetting or will have little or no impact on contract performance. Risk of unsuccessful performance is no worse than moderate.
Marginal (M)	Proposal does not clearly meet requirements and has not demonstrated an adequate approach and understanding of the requirements. The proposal has one or more weaknesses which are not offset by strengths. Risk of unsuccessful performance is high.
Unacceptable (U)	Proposal does not meet requirements and contains one or more deficiencies. Proposal is unawardable.

2. Definitions: The following definitions are provided to assist evaluators in the evaluation of each non-cost/price factor.

a. Strength: An aspect of an offeror's proposal that has merit or exceeds specified performance or capability requirements in a way that will be advantageous to the Government during contract performance.

b. Weakness: A flaw in the proposal that increases the risk of unsuccessful contract performance.

c. Significant Weakness: A flaw that appreciably increases the risk of unsuccessful contract performance.

d. Deficiency: A material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increases the risk of unsuccessful contract performance to an unacceptable level.

C. SMALL BUSINESS UTILIZATION EVALUATION

1. Per NFAS 15.304(b), for unrestricted acquisitions, an evaluation factor for Small Business Utilization shall be included and shall be weighted at least equal to the highest ranking technical factor.

2. Small business participation will be evaluated utilizing the ratings outlined in Table 2. References to the term “requirements” in the technical rating description shall equate to small business requirements, as reflected in the RFP as small business objectives.

Table 2. Technical Ratings	
Rating	Description
Outstanding (O)	Proposal meets requirements and indicates an exceptional approach and understanding of the requirements. The proposal contains multiple strengths and no deficiencies.
Good (G)	Proposal meets requirements and indicates a thorough approach and understanding of the requirements. Proposal contains at least one strength and no deficiencies.
Acceptable (A)	Proposal meets requirements and indicates an adequate approach and understanding of the requirements. Proposal has no strengths or deficiencies.
Marginal (M)	Proposal does not clearly meet requirements and has not demonstrated an adequate approach and understanding of the requirements.
Unacceptable (U)	Proposal does not meet requirements and contains one or more deficiencies and is unawardable.

D. SAFETY EVALUATION

1. Per NFAS 15.304(d), solicitations utilizing source selection procedures for procurements within the 50 United States and the District of Columbia shall contain a standard “Safety” technical evaluation factor. This factor shall be included as a stand-alone evaluation factor and not as a sub-factor or an element of the Past Performance evaluation factor. This action will result in the selection of contractors that have consistently demonstrated a commitment to safety and the ability to properly manage and implement safety procedures for themselves and all tiers of subcontractors under their purview.

2. The safety evaluation has three elements: Experience Modification Rate (EMR), Occupational Safety and Health Association (OSHA) Days Away from Work, Job Restriction, or Transfer (DART), and Technical Approach to Safety.

3. The three elements of safety identified above, are not sub-factors. The evaluators should collectively consider all elements of safety when assigning an overall adjectival rating for this factor. The SSEB will need to make a qualitative determination of the rating for this factor, taking into account the risk ratings for EMR and DART and the subjective evaluation of the narrative.

4. Evaluators will not average the rating from the *past 3* years for the EMR and the DART.

5. The following should be utilized by evaluators as a general guideline to evaluate the EMR and DART rates:

<u>Risk</u>	<u>EMR</u>
Very Low Risk	Less than 0.6
Low Risk	From 0.6 to less than 0.8
Moderate Risk	From 0.8 to 1.0
High Risk	Greater than 1.0 to 1.1
Extremely High Risk	Greater than 1.1

<u>Risk</u>	<u>DART Rate</u>
Very Low Risk	Less Than 1.0
Low Risk	From 1.0 to 1.99
Moderate Risk	From 2.0 to 2.99
High Risk	From 3.0 to 4.0
Extremely High Risk	Greater than 4.0

E. PAST PERFORMANCE EVALUATION

1. The past performance evaluation results in an assessment of the offeror’s probability of meeting the solicitation requirements. The past performance evaluation considers each offeror’s demonstrated recent and relevant record of performance in supplying products and services that meet the contract’s requirements. One performance confidence assessment rating is assigned for each offeror after evaluating the offeror’s recent past performance, focusing on performance that is relevant to the contract requirements.

2. There are two aspects to the past performance evaluation. The first is to evaluate the offeror’s past performance to determine how relevant a recent effort accomplished by the offeror is to the effort to be acquired through the source selection. A relevant project is defined in Factor 2 – Experience.

3. Past Performance relevancy will be rated as either “Relevant” or “Not Relevant”.

Table 4. Past Performance Relevancy Ratings	
Rating	Definition
Relevant	Present/past performance effort involved similar scope and magnitude of effort and complexities this solicitation requires.
Not Relevant	Present/past performance effort involved little or none of the scope and magnitude of effort and complexities this solicitation requires.

4. The second aspect of the past performance evaluation is to determine how well the contractor performed on the contracts. The past performance evaluation performed in support of a current source selection does not establish, create, or change the existing record and history of the offeror’s past performance on past contracts; rather, the past performance evaluation process gathers information from customers on how well the offeror performed those past contracts.

5. Performance Confidence Assessment. In conducting a performance confidence assessment, each offeror shall be assigned one of the ratings in Table 5 below:

Table 5. Performance Confidence Assessments	
Rating	Description
Substantial Confidence	Based on the offeror’s recent/relevant performance record, the Government has a high expectation that the offeror will successfully perform the required effort.
Satisfactory Confidence	Based on the offeror’s recent/relevant performance record, the Government has a reasonable expectation that the offeror will successfully perform the required effort.
Limited Confidence	Based on the offeror’s recent/relevant performance record, the Government has a low expectation that the offeror will successfully perform the required effort.
No Confidence	Based on the offeror’s recent/relevant performance record, the Government has no expectation that the offeror will be able to successfully perform the required effort.
Unknown Confidence (Neutral)	No recent/relevant performance record is available or the offeror’s performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned.

F. EVALUATION FACTORS FOR AWARD

1. The solicitation requires the evaluation of price and the non-cost/price factors set below. This will be a Two Phase Evaluation process in accordance with FAR 36.3.

2. For Two-Phase DB procurements, Factors 1, 2, 3 and 4 will be evaluated in Phase I and Factors 5 and 6 will be evaluated in Phase II. Factor 1 will only be rated Acceptable or Unacceptable. If an Offeror is rated Unacceptable in Factor 1, then they will not be considered for Phase II. In making the best value award decision after Phase II, the government will consider Factors 2, 3, 4, 5, 6, and price. The relative order of importance of the non-cost/price evaluation factors is that technical factors (2, 4 5 and 6) are equal to each other and when combined are equal importance to the performance confidence assessment (factor 3). The combined non-cost/price factors are approximately equal to price. Subfactors 6A and 6B are equal in importance to each other. **The Government reserves the right to limit the number of proposals selected to submit Phase II proposals. The proposal due date for Phase II will be established by amendment after the completion of Phase I.**

Non-Cost/Price Factors:

Phase I consist of the following factors:

- Factor 1– Technical Approach
- Factor 2 – Recent, Relevant Experience of the Firm
- Factor 3 – Past Performance
- Factor 4 – Safety

Phase II consists of the following factors:

- Factor 5– Technical Solution
- Factor 6 –Small Business Utilization
 - Subfactor 6.A. – Past Performance in Utilization of Small Business Concerns
 - Subfactor 6.B. – Small Business Participation

Price

“The distinction between experience and past performance is that experience pertains to the volume of work completed by a contractor that are comparable to the types of work described under the definition of recent, relevant projects, in terms of size, scope, and complexity. Past performance pertains to both the relevance of recent efforts and how well a contractor has performed on the contracts.”

The importance of price will increase if the Offerors’ non-cost/price proposals are considered essentially equal in terms of overall quality, or if price is so high as to significantly diminish the value of a non-cost/price proposal’s superiority to the Government. Award will be made to the responsible Offeror(s) whose offer conforms to the solicitation and represents the best value to the Government, price and non-price factors considered.

3. Basis of Evaluation and Submittal Requirements for Each Factor.

(a) Non-Cost/Price Submission

Non-cost/price Requirements for PHASE I:

Non-cost/price Factors Binder: Offeror shall submit one (1, marked “Original”, a CD and five (5) copies, each in a separate three-ring binder with following characteristics:

- 8 ½ x 11 format
- 12 point font
- SF1442, signed with all amendments acknowledged
- Include a cover page with Contract Number, Contract Title, Prime Contractor Name, Address, Phone Number, Fax Number, DUNS, Cage Code, Point of Contact and their phone and email address
- Technical Binder should include only information in response to Factors 1, 2, 3, and 4.
 - If you are proposing as a Joint Venture, a copy of the Joint Venture Agreement shall be submitted with Phase I proposal. Identification of the prime contractor and the composition of each member (LB, HUBZone, 8a, SB, SDB, WOSB, VOSB, or SDVOSB and, if applicable HBCU/MI)
 - Identify, in terms of dollar value and percentage of total proposed price, the extent of work the prime contractor and each team member will perform.
 - A complete electronic copy of the technical proposal as a single .pdf file on a CD-ROM (include with the “Original” technical submission)

Non-Cost/Price Requirements for PHASE II only:

- 8 ½ x 11 format
- 12 point font
- Include a cover page with Contract Number, Contract Title, Prime Contractor Name, Address, Phone Number, Fax Number, DUNS, Cage Code, Point of Contact and their phone and email address
- Submit information for non-price factors 5 through 6 under Phase II.

(b) PRICE SUBMISSION**(1) Price Requirements for PHASE II only:**

Price Binder: Offeror shall submit one (1) marked “Original”, and one (1) copy, each in a separate three-ring binder with the following characteristics:

- 8 ½ x 11 format
- 12 point font
- Include a cover page with Contract Number, Contract Title, Prime Contractor Name, Address, Phone Number, Fax Number, DUNS, Cage Code, Point of Contact and their phone and email address.
- Completed SF1442 signed with all amendments acknowledged and include Pricing Schedule from section 0010
- Registration in SAM
- Copy of Online Representation and Certifications Application (ORCA)
- Confirmation of filing of Veterans’ Employment and Training (VETS) VETS100 and/or VETS100A report for the 2014 filing cycle.
- Bid Guarantee in accordance with FAR Clause 52.228-1 -- Bid Guarantee. Amount shall be at least 20 percent of the bid price but shall not exceed \$3 million
- Include a cover page with Solicitation Number, Solicitation Title, Prime Contractor, Name, Address, Phone Number, Fax Number, DUNS, Cage Code, Point of Contact, phone number, and email address.
- A complete electronic copy of the price proposal as a single .pdf file on a CD-ROM (include with the “Original” price submission)

(2) Basis of Evaluation: The Government will evaluate price based on the total price.

Total price consists of the basic requirements and all option items (see Section B of the solicitation). The Government intends to evaluate all options and has included the provision FAR 52.217-5, Evaluation of Options (JUL 1990) in the solicitation. In accordance with FAR 52.217-5, evaluation of options will not obligate the Government to exercise the option(s). Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

- (i) Comparison of proposed prices received in response to the RFP.
- (ii) Comparison of proposed prices with the IGCE.
- (iii) Comparison of proposed prices with available historical information.
- (iv) Comparison of market survey results.

(b) Non-cost/price Factors:**(1) Factor 1 –Technical Approach:****(i) Solicitation Submittal Requirements:**

The composition and management of the firms proposed as the design-build (DB) team for this contract will be evaluated in this factor.

The Offeror shall submit the following information:

- a. Provide a narrative describing the proposed primary construction firms and primary design firms for this contract and the rationale for proposing this arrangement. Provide the role, responsibilities, and contractual relationships between the various firms (see FAR Subpart 9.6). The narrative shall also include a simple organizational chart that clearly identifies the lines of authority between the entities. If the experience of a significant subcontractor is being referenced in Factor 2, the firm must be named in the above narrative and organizational chart.

The technical approach narrative shall be limited to one (1) double-sided page (or two (2) single-sided pages) including the organizational chart. The information requested in item #2 below is not included in this page limitation.

In addition to the narrative, the Offeror shall submit a signed copy of a joint venture agreement, partnership agreement, teaming agreement, or letter of commitment for each member of the Offeror's team identified above (e.g., joint venture partner, partner, team member, subcontractor, parent company, subsidiary, or other affiliated company, etc.).

(ii) Basis of Evaluation:

The assessment of the Offeror's technical approach will be used as a means of evaluating the capability of the Offeror to successfully meet the requirements of the RFP. This factor will be rated on an Acceptable or Unacceptable basis. Offerors that are rated Unacceptable will be found ineligible to proceed to Phase II.

(2) **Factor 2 – Recent/Relevant Experience of the Firm:**

(i) Solicitation Submittal Requirements:

The Offeror shall submit the following information:

a. Construction Experience:

Submit a minimum of two and a maximum of five (5) construction projects for the Offeror that best demonstrates your experience on relevant projects that are similar in size, scope, and complexity to the RFP.

For purposes of this evaluation, a relevant project is further defined as follows:

Size: Projects equal to or greater than \$5.0 million.

Scope: Projects including demolition of industrial facilities.

Proposals demonstrating the following experience on relevant projects will be considered more favorably.

- a. Demolition of steam boilers greater than 75,000 lb/hr output capacity.
- b. Demolition of steam piping, 8" or greater and longer than 1,000 lf.
- c. Hazardous Material Abatement of industrial facilities larger than 7,000 sf.

Projects submitted for the Offeror shall be completed within the past ten (10) years of the date of issuance of this RFP.

A project is defined as a construction project performed under a single task order or contract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole should not be submitted as a project; rather Offerors should submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment B) is MANDATORY and SHALL be used to submit project information. If the same project is being used to demonstrate construction and design experience, submit separate Project Data Sheets for construction and design. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed one double-sided page (or two single-sided pages).

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this RFP.

If the Offeror is a Joint Venture (JV), relevant project experience should be submitted for projects completed by the Joint Venture entity. If the Joint Venture does not have shared experience, projects shall be submitted for each Joint Venture partner. If no shared project experience is demonstrated, proposals that fail to submit projects for each partner may be rated lower. Offerors are still limited to a total of five (5) projects combined.

The Government will not consider any project submitted for Factor 2 if it was performed by a firm other than the Offeror and there is no supporting joint venture agreement, partnership agreement, teaming agreement, letter of commitment, or explanation of meaningful involvement provided in Factor 1.

b. Design Experience

Submit a minimum of two and a maximum of five (5) design projects for the design team that best demonstrates design experience on relevant projects that are similar in size, scope, and complexity to the RFP.

For purposes of this evaluation, a relevant project is further defined as follows:

Size: Projects equal to or greater than \$5.0 million.

Scope: Projects including demolition of industrial facilities.

Proposals demonstrating the following experience on relevant projects will be considered more favorably.

- a. Demolition of steam boilers greater than 75,000 lb/hr output capacity.
- b. Demolition of steam piping, 8" or greater and longer than 1,000 lf.
- c. Hazardous Material Abatement of industrial facilities larger than 7,000 sf.

Projects submitted shall be completed within the past ten (10) years of the date of issuance of this RFP. For design-build projects, the design portion of the contract shall have been completed within the past **10** years of the date of issuance of this RFP.

A project is defined as a complete design effort performed under a single task order or contract/subcontract. For multiple award and indefinite delivery/indefinite quantity type contracts, the contract as a whole should not be submitted as a project; rather Offerors should submit the work performed under a task order as a project.

The attached Construction & Design Experience Project Data Sheet (Attachment B) is **MANDATORY** and **SHALL** be used to submit project information. If the same project is being used to demonstrate construction and design experience, submit separate Project Data Sheets for construction and design. Except as specifically requested, the Government will not consider information submitted in addition to this form. Individual blocks on this form may be expanded; however, total length for each project data sheet shall not exceed one double-sided page (or two single-sided pages).

For all submitted projects, the description of the project shall clearly describe the scope of work performed and the relevancy to the project requirements of this RFP.

The Government will not consider any project submitted for Factor 2 if it was performed by a firm other than the Offeror and there is no supporting joint venture agreement, partnership agreement, teaming agreement, or letter of commitment provided in Factor 1.

(b) Basis of Evaluation:

The basis of evaluation will include the Offeror's demonstrated experience in performing relevant construction and design projects as defined in the solicitation submittal requirements. The assessment of the Offeror's relevant experience will be used as a means of evaluating the capability of the Offeror to successfully meet the requirements of the RFP. The government will only review five projects for construction and five for design. Any projects submitted in excess of the five will not be considered.

Proposals that fail to provide required and complete information may be rated lower.

Relevant projects where the Offeror and the proposed design firm(s) have previously worked together may receive a higher rating than those that have not worked together.

Relevant projects that demonstrate the following may be rated higher.

- d. Demolition of steam boilers greater than 75,000 lb/hr output capacity.
- e. Demolition of steam piping, 8" or greater and longer than 1,000 lf.
- f. Hazardous Material Abatement of industrial facilities larger than 7,000 sf.

Relevant projects that demonstrate design-build experience may receive a higher rating than those that do not have design-build experience.

Relevant projects that demonstrate experience with sustainable features may receive a higher rating than those that do not demonstrate experience with sustainable features.

(3) **Factor 3, Past Performance**

(i) Solicitation Submittal Requirements:

If a completed Construction Contractor Appraisal Support System (CCASS or CPARS) evaluation is available, it shall be submitted with the proposal for each project included in Factor 2 for construction experience. If a completed AE Contractor Appraisal Support System (ACASS or CPARS) evaluation is available, it shall be submitted with the proposal for each project included in Factor 2 for design experience. If there is not a completed CCASS or ACASS evaluation then submit Past Performance Questionnaires (Attachment D) for each project included in Factor 2 for both Construction Experience and Design Experience. The Offeror should provide completed Past Performance Questionnaires (PPQ) in the proposal. Offeror's shall not incorporate by reference into their proposal PPQs previously submitted for other RFPs. However, this does not preclude the Government from utilizing previously submitted PPQ information in the past performance evaluation. If the Offeror is unable to obtain a completed PPQ from a client for a project(s) before proposal closing date, the Offeror shall complete and submit with the proposal the first page of the PPQ, which will provide contract and client information for the respective project(s). The Government may make reasonable attempts to contact the client noted for that project(s) to obtain the PPQ information. However, Offeror's should follow-up with clients/references to help ensure timely submittal of questionnaires. If the client requests, questionnaires may be submitted directly to the Government's point of contact, Alex Holmes, alex.holmes@navy.mil

Offeror's may provide any information on problems encountered and the corrective actions taken on projects submitted under Factor 2 – Experience. Offeror's may also address any adverse past performance issues. Explanations shall not exceed two (2) double-sided pages (or four (4) single-sided pages) in total.

The Government reserves the right to contact references for verification or additional information. The Government's inability to contact any of the Offeror's references or the references unwillingness to provide the information requested may affect the Government's evaluation of this factor.

Relevant projects where the Offeror and/ or the proposed design firm(s) have received Design or Construction awards may receive a higher rating.

(ii) Basis of Evaluation:

This evaluation focuses on how well the Offeror performed on the relevant projects submitted under Factor 2 – Experience and past performance on other projects currently documented in known sources. More emphasis will be placed on more relevant projects. In addition to the above, the Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. Other sources may include, but are not limited to, past performance information retrieved through the Past Performance Information Retrieval System (PPIRS) using all CAGE/DUNS numbers of Contractors who are part of a partnership or joint venture identified in the Offeror's proposal, inquiries of owner representative(s), Federal Awardee Performance and Integrity Information System (FAPIIS), Electronic Subcontract Reporting System (eSRS), and any other known sources not provided by the Offeror.

The Government will consider the currency and relevance of the information, the source of the information, context of the data, and general trends in the Contractor's performance. This evaluation is

separate and distinct from the Contracting Officer's responsibility determination. The assessment of the Offeror's past performance will be used as a means of evaluating the Offeror's probability to successfully meet the requirements of the RFP.

Offeror's lacking relevant past performance history will not be evaluated favorably or unfavorably in past performance and will receive an Unknown Confidence rating.

(3) **Factor 4, Safety:**

(i) Solicitation Submittal Requirements:

The Offeror shall submit the following information: (For a partnership or joint venture, the following submittal requirements are required for each contractor who is part of the partnership or joint venture; however, only one safety narrative is required. EMR and DART Rates shall not be submitted for subcontractors.)

(1) Experience Modification Rate (EMR):

For the three previous complete calendar years 2012, 2013, and 2014, submit your EMR (which compares your company's annual losses in insurance claims against its policy premiums over a three year period). If you have no EMR, affirmatively state so, and explain why. Any extenuating circumstances that affected the EMR and upward or downward trends should be addressed as part of this element. Lower EMRs will be given greater weight in the evaluation.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate:

For the three previous complete calendar years 2012, 2013, and 2014, submit your OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate, as defined by the U.S. Department of Labor, Occupational Safety and Health Administration. If you cannot submit an OSHA DART Rate, affirmatively state so, and explain why. Any extenuating circumstances that affected the OSHA DART Rate data and upward or downward trends should be addressed as part of this element. Lower OSHA DART Rates will be given greater weight in the evaluation.

(3) Technical Approach for Safety:

Describe the plan that the Offeror will implement to evaluate safety performance of potential subcontractors, as a part of the selection process for all levels of subcontractors. Also, describe any innovative methods that the Offeror will employ to ensure and monitor safe work practices at all subcontractor levels. The Safety Narrative shall be limited to two pages.

(ii) Basis of Evaluation:

The Government is seeking to determine that the Offeror has consistently demonstrated a commitment to safety and that the Offeror plans to properly manage and implement safety procedures for itself and its subcontractors. The Government will evaluate the Offeror's overall safety record, the Offeror's plan to select and monitor subcontractors, any and innovative safety methods that the Offeror plans to implement for this procurement. The Government's sources of information for evaluating safety may include, but are not limited to, OSHA, NAVFAC's Facility Accident and Incident Reporting (FAIR) database, and other related databases. While the Government may elect to consider data from other sources, the burden

of providing detailed, current, accurate and complete safety information regarding these submittal requirements rests with the Offeror. The evaluation will collectively consider the following:

- Experience Modification Rate (EMR)
- OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate
- Offeror Technical Approach to Safety
- Other sources of information available to the Government
 - (1) Experience Modification Rate (EMR):

The Government will evaluate the EMR to determine if the Offeror has demonstrated a history of safe work practices taking into account any upward or downward trends and extenuating circumstances that impact the rating. Lower EMRs will be given greater weight in the evaluation.

(2) OSHA Days Away from Work, Restricted Duty, or Job Transfer (DART) Rate:

The Government will evaluate the OSHA DART Rate to determine if the Offeror has demonstrated a history of safe work practices taking into account any upward or downward trends and extenuating circumstances that impact the rates. Lower OSHA DART Rates will be given greater weight in the evaluation.

(3) Technical Approach to Safety:

The Government will evaluate the narrative to determine the degree to which subcontractor safety performance will be considered in the selection of all levels of subcontractors on the upcoming project. The Government will also evaluate the narrative to determine the degree to which innovations are being proposed that may enhance safety on this procurement. Those Offerors whose plan demonstrates a commitment to hire subcontractors with a culture of safety and who propose innovative methods to enhance a safe working environment may be given greater weight in the evaluation.

(4) **Factor 5, Technical Solution:**

(i) Solicitation Submittal Requirements:

Provide a narrative describing the technical solution to the project that meets the requirements of the RFP and Bid Schedule. Include the following:

- A Construction Phasing Plan with milestone dates
- Permit Submittal Schedules

Narrative shall not exceed ten double-sided pages (or 20 single-sided pages).

(ii) Basis of Evaluation:

The Government will evaluate the narrative considering the extent to which the Offeror demonstrates a clear understanding of the architectural and engineering requirements of the project. The Government will evaluate the Offeror's technical solution to determine adherence to the technical requirements of the RFP.

(5) **Factor 6, Small Business Utilization consist of two subfactors:**

Subfactors: 6a Past Performance in Utilization of Small Business Concerns**Subfactors: 6b Small Business Participation.**

The evaluation of subfactors 6a and 6b are of equal importance to the determination of Factor 6 Rating.

Definitions: “SB” as used herein, is intended to include Small Business concerns, Small Disadvantaged Business concerns (SDB), Women-Owned Small Business concerns (WOSB), Historically Underutilized Business Zone Small Business concerns (HUBZone), Veteran-Owned Small Business concerns (VOSB), and Service-Disabled Veteran-Owned Small Business concerns (SDVOSB). All small business programs are self-certifying programs with the exception of HUBZone certifications, see HUBZone SB Certifications below. Small Business Program requirements and definitions may be found in the Federal Acquisition Regulations (FAR), Part 19.

HUBZone SB Certifications: Offerors are reminded that HUBZone SB concerns must obtain formal certification from the Small Business Administration (SBA) if they expect to receive the evaluation benefits associated with the HUBZone SB programs either as a prime or subcontractor(s). For more information on the HUBZone SB certification requirements and available benefits, contact your local SBA representative. Certified HUBZone SB firms are listed on the Central Contractor Registration (CCR) website at www.ccr.gov. It is the responsibility of the prime contractor to periodically check the CCR as certifications are subject to change.

Subfactor 6a – Past Performance in Utilization of Small Business Concerns**(a) Solicitation Submittal Requirements:**

Proposals that do not include responses addressing ALL elements of the requirements stated below (a. through g.) must include an explanation why that element is not addressed.

a. Provide performance evaluation ratings (i.e., SF1420, DD2626, or equivalent) obtained on the implementation of small business subcontracting plans for all of the offeror’s contracts referenced under Factor 2. Recently completed project evaluations are desired, however, in the absence of recently completed project evaluations, interim ratings for projects that are 80% complete may be considered. If more than five evaluation ratings are provided, only the first five will be considered. In addition, the Government may consider past performance information on other projects as made available to the Government from other sources (such as the Construction Contractor Appraisal Support Systems (CCASS)), Architect-Engineer Contract Administration Support System (ACASS) and Contractor Performance Assessment Reporting System (CPARS)).

b. Provide information on national and industry-issued awards that offerors received for outstanding support to SB concerns within the past five (5) years. Include purpose, issuer, and date of award(s). National and industry-issued awards received beyond five (5) years will not be considered.

c. Provide information on previous, existing, planned or pending mentor-protégé agreements (MPA) under any Federal Government or other program held within the last five years. Information should include, at a minimum, the members, objectives, period of performance, and major accomplishments during the MPA.

d. Provide information on past use of Community Rehabilitation Program (CRP) organizations certified

under the AbilityOne Program by NISH or the National Industry for the Blind (NIB). Information should include the contract type, type of work performed, period of performance, and number of employed severely handicapped persons.

e. Provide small business subcontracting history. Large businesses with Federal contracting experience shall provide completed or most recently approved SF294s “Subcontracting Report for Individual Contracts” or Individual Subcontracting Reports (ISRs) on all contracts referenced under Factor 3 -Past Performance. Reports for recently completed projects are desired, however, in the absence of recently completed project reports, interim reports may be considered if the project is at least 80% complete. If more than five (5) reports are provided, only the first five (5) will be considered. If goals were not met on submitted contracts, provide an explanation as to why. Newly established Large Businesses or Large Businesses with no prior SF294/ISR history shall submit a subcontracting history on Attachment C, Small Business Past Performance.

f. Small Business proposers shall provide a subcontracting history on Attachment C), Small Business Past Performance.

g. If an Offeror is utilizing past performance information of affiliates/subsidiaries/parent/LLC/LTD member companies (name is not exactly as stated on the solicitation), the proposal shall clearly demonstrate that the affiliates/subsidiaries/parent/LLC/LTD member companies will have meaningful participation of all members in the management of the subcontracting program/plan by identifying the personnel or resources from the member companies that will be dedicated to managing the plan, and an organization chart which demonstrates the reporting chain within the membership.

If the Offeror is a Joint Venture, Partnership LLC or other entity consisting of more than one entity, provide past performance information, elements a. through f., for each individual business entity(ies) that will be responsible for managing the subcontracting program/plan.

(b) Basis of Evaluation:

The Government will evaluate the extent to which the proposal demonstrates the proposer’s level of past performance in utilizing Small Business (SB) concerns, AbilityOne, Mentor-Protégé Agreements, and other socio-economic programs, as defined in FAR Parts 26.1 and 26.2, in subcontracting, and in meeting established Small Business subcontracting goals.

Subfactor 6b – Small Business Participation

(a) Solicitation Submittal Requirements:

Identify in terms of dollar value and percentage of the total acquisition, the extent of work you will perform as the prime contractor. If submitting an offer as a Joint-Venture, identify the percentage of work each member will be responsible for and indicate the size status of each member, e.g., LB, SB, SDB, WOSB, HUBZone SB, etc.

If you are a Large Business, submit a Small Business Subcontracting Plan for this project in the format provided in Attachment D for this factor, to include all information required in the attachment. If you are a Small Business, submit a subcontracting participation breakdown in the format provided in Attachment E for this factor. All proposers: To demonstrate commitment in using small business

concerns, the Small Business Subcontracting Plan or subcontracting participation breakdown may list all subcontractors by name. If the proposed Small Business Subcontracting goals do not meet the minimum NAVFAC Small Business Subcontracting Targets, include a detailed explanation describing the actions taken to arrive at that determination, along with an explanation for the goals that actually were proposed. For proposals submitted on design-build solicitations, the proposer must identify its designer/design team in its Subcontracting Plan or Small Business Participation Breakdown.

Firm commitments to subcontract to multiple companies: The Offeror may provide a demonstration of commitments in planned subcontracts by listing multiple names of companies that will be used to support specific small business category (i.e., SB SDB, WOSB, HUBZone SB, VOSB and SDVOSB).

(b) Basis of Evaluation:

The following will be evaluated on all proposals:

- a. The extent to which the proposal demonstrates maximum practicable participation of SBs in terms of the total value of the acquisition, including options.
- b. The extent to which the proposal demonstrates a commitment to use SB concerns that are specifically identified in the proposal, including but not limited to use of mentor protégé programs.
- c. The extent to which the proposal demonstrates SB participation in a variety of industries expected during the performance of work.
- d. The realism of the proposal to meet the proposed goals.

The following will be evaluated on proposals submitted by large Business firms:

- a. The extent to which the proposal provides Small Business Subcontracting goals that meet or exceed the minimum NAVFAC Small Business Subcontracting Targets, and utilization of AbilityOne CRP organizations. Proposals that provide goals exceeding the NAVFAC Subcontracting Targets may be rated higher. The proposed goals and NAVFAC Subcontracting Targets are expressed as a percentage of total subcontracted values. The minimum NAVFAC Subcontracting Targets are as follows:

	FY 2015
SB	66.08%
SDB	17.27%
WOSB	15.30%
HUBZone	8.94%
VOSB	3.03%
SDVOSB	3.03%

- b. The extent to which the proposer’s Small Business Subcontracting Plan establishes reasonable efforts demonstrating the subcontracting targets can be met during the performance of the contract:

A copy of the blank forms to be used for offeror submission of Small Business Utilization are included as follows:

Attachment E – Small Business Past Performance

Attachment F – Small Business Subcontracting Plan.

Attachment G – Small Business Offeror Small Business Participation Breakdown

(7) **Price:**

(a) Solicitation Submittal Requirements:

(1) Price shall be submitted on the Price Schedule included in the solicitation.

(b) Basis of Evaluation

(1) The Design-Build Budget Amount for this project is \$18,000,000. The Government will evaluate the price based on the cumulative price for all contract line items. Proposals that provide prices greater than the Design-Build Budget Amount may be rejected.

(2) Analysis will be performed by one or more of the following techniques to ensure a fair and reasonable price:

Comparison of proposed prices received in response to the RFP.

Comparison of proposed prices to the Government Estimate (GE).

Comparison of proposed prices with available historical information.

SITE VISIT INFORMATION

There is no site visit information provided nor will a site visit be conducted for Phase I proposal submittals. Site visit for this project will be conducted during Phase II. Offerors selected to go into Phase II will receive instructions for gaining access to the site and a date, time, and location of the site visit.

Section 00700 - Contract Clauses

CLAUSES INCORPORATED BY REFERENCE

52.202-1	Definitions	NOV 2013

CLAUSES INCORPORATED BY FULL TEXT

52.209-5 CERTIFICATION REGARDING RESPONSIBILITY MATTERS (APR 2010)

(a)(1) The Offeror certifies, to the best of its knowledge and belief, that-

(i) The Offeror and/or any of its Principals-

(A) Are () are not () presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) Have () have not (), within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) contract or subcontract; violation of Federal or State antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property (if offeror checks "have", the offeror shall also see 52.209-7, if included in this solicitation); and

(C) Are () are not () presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated in paragraph (a)(1)(i)(B) of this provision.; and

(D) Have , have not , within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(1) Federal taxes are considered delinquent if both of the following criteria apply:

(i) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(ii) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(2) Examples. (i) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(ii) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(iii) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(iv) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(ii) The Offeror has () has not (), within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) Principal, for the purposes of this certification, means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The Offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the Offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the Offeror's responsibility. Failure of the Offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the Offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by paragraph (a) of this provision. The knowledge and information of an Offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the Offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

(End of provision)

52.209-7 INFORMATION REGARDING RESPONSIBILITY MATTERS (JULY 2013)

(a) Definitions. As used in this provision--

Administrative proceeding means a non-judicial process that is adjudicatory in nature in order to make a determination of fault or liability (e.g., Securities and Exchange Commission Administrative Proceedings, Civilian Board of Contract Appeals Proceedings, and Armed Services Board of Contract Appeals Proceedings). This includes administrative proceedings at the Federal and State level but only in connection with performance of a Federal contract or grant. It does not include agency actions such as contract audits, site visits, corrective plans, or inspection of deliverables.

Federal contracts and grants with total value greater than \$10,000,000 means--

(1) The total value of all current, active contracts and grants, including all priced options; and

(2) The total value of all current, active orders including all priced options under indefinite-delivery, indefinite-quantity, 8(a), or requirements contracts (including task and delivery and multiple-award Schedules).

Principal means an officer, director, owner, partner, or a person having primary management or supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a division or business segment; and similar positions).

(b) The offeror () has () does not have current active Federal contracts and grants with total value greater than \$10,000,000.

(c) If the offeror checked "has" in paragraph (b) of this provision, the offeror represents, by submission of this offer, that the information it has entered in the Federal Awardee Performance and Integrity Information System (FAPIS) is current, accurate, and complete as of the date of submission of this offer with regard to the following information:

(1) Whether the offeror, and/or any of its principals, has or has not, within the last five years, in connection with the award to or performance by the offeror of a Federal contract or grant, been the subject of a proceeding, at the Federal or State level that resulted in any of the following dispositions:

(i) In a criminal proceeding, a conviction.

(ii) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more.

(iii) In an administrative proceeding, a finding of fault and liability that results in--

(A) The payment of a monetary fine or penalty of \$5,000 or more; or

(B) The payment of a reimbursement, restitution, or damages in excess of \$100,000.

(iv) In a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in paragraphs (c)(1)(i), (c)(1)(ii), or (c)(1)(iii) of this provision.

(2) If the offeror has been involved in the last five years in any of the occurrences listed in (c)(1) of this provision, whether the offeror has provided the requested information with regard to each occurrence.

(d) The offeror shall post the information in paragraphs (c)(1)(i) through (c)(1)(iv) of this provision in FAPIIS as required through maintaining an active registration in the System for Award Management database via <https://www.acquisition.gov> (see 52.204-7).

(End of provision)

CLAUSES INCORPORATED BY FULL TEXT

52.211-10 COMMENCEMENT, PROSECUTION, AND COMPLETION OF WORK (APR 1984)

The Contractor shall be required to (a) commence work under this contract within **15** calendar days after the date the Contractor receives the notice to proceed, (b) prosecute the work diligently, and (c) complete the entire work ready for use not later than **850 calendar days after award (includes 15 days for Performance and Payment Bonds)**. The time stated for completion shall include final cleanup of the premises.

(End of clause)

CLAUSES INCORPORATED BY FULL TEXT

52.211-12 LIQUIDATED DAMAGES--CONSTRUCTION (SEP 2000)

(a) If the Contractor fails to complete the work within the time specified in the contract, the Contractor shall pay liquidated damages to the Government in the amount of **\$8,950.00** for each calendar day of delay until the work is completed or accepted.

(b) If the Government terminates the Contractor's right to proceed, liquidated damages will continue to accrue until the work is completed. These liquidated damages are in addition to excess costs of repurchase under the Termination clause.

(End of clause)

CLAUSES INCORPORATED BY FULL TEXT

52.217-5 EVALUATION OF OPTIONS (JUL 1990)

Except when it is determined in accordance with FAR 17.206(b) not to be in the Government's best interests, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).

(End of provision)

CLAUSES INCORPORATED BY FULL TEXT

52.225-11 BUY AMERICAN--CONSTRUCTION MATERIALS UNDER TRADE AGREEMENTS (MAY 2014)

(a) Definitions. As used in this clause--

Caribbean Basin country construction material means a construction material that--

(1) Is wholly the growth, product, or manufacture of a Caribbean Basin country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a Caribbean Basin country into a new and different construction material distinct from the materials from which it was transformed.

Commercially available off-the-shelf (COTS) item—

(1) Means any item of supply (including construction material) that is--

(i) A commercial item (as defined in paragraph (1) of the definition at FAR 2.101);

(ii) Sold in substantial quantities in the commercial marketplace; and

(iii) Offered to the Government, under a contract or subcontract at any tier, without modification, in the same form in which it is sold in the commercial marketplace; and

(2) Does not include bulk cargo, as defined in 46 U.S.C. 40102(4) such as agricultural products and petroleum products.

Component means an article, material, or supply incorporated directly into a construction material.

Construction material means an article, material, or supply brought to the construction site by the Contractor or subcontractor for incorporation into the building or work. The term also includes an item brought to the site preassembled from articles, materials, or supplies. However, emergency life safety systems, such as emergency lighting, fire alarm, and audio evacuation systems, that are discrete systems incorporated into a public building or work and that are produced as complete systems, are evaluated as a single and distinct construction material regardless of when or how the individual parts or components of those systems are delivered to the construction site. Materials purchased directly by the Government are supplies, not construction material.

Cost of components means--

(1) For components purchased by the Contractor, the acquisition cost, including transportation costs to the place of incorporation into the construction material (whether or not such costs are paid to a domestic firm), and any applicable duty (whether or not a duty-free entry certificate is issued); or

(2) For components manufactured by the Contractor, all costs associated with the manufacture of the component, including transportation costs as described in paragraph (1) of this definition, plus allocable overhead costs, but excluding profit. Cost of components does not include any costs associated with the manufacture of the construction material.

Designated country means any of the following countries:

(1) A World Trade Organization Government Procurement Agreement country (Armenia, Aruba, Austria, Belgium, Bulgaria, Canada, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Israel, Italy, Japan, Korea (Republic of), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Singapore, Slovak Republic, Slovenia, Spain, Sweden, Switzerland, Taiwan or United Kingdom);

(2) A Free Trade Agreement country (Australia, Bahrain, Canada, Chile, Colombia, Costa Rica, Dominican Republic, El Salvador, Guatemala, Honduras, Korea (Republic of), Mexico, Morocco, Nicaragua, Oman, Panama, Peru, or Singapore);

(3) A least developed country (Afghanistan, Angola, Bangladesh, Benin, Bhutan, Burkina Faso, Burundi, Cambodia, Central African Republic, Chad, Comoros, Democratic Republic of Congo, Djibouti, Equatorial Guinea, Eritrea, Ethiopia, Gambia, Guinea, Guinea-Bissau, Haiti, Kiribati, Laos, Lesotho, Liberia, Madagascar, Malawi, Mali, Mauritania, Mozambique, Nepal, Niger, Rwanda, Samoa, Sao Tome and Principe, Senegal, Sierra Leone, Solomon Islands, Somalia, South Sudan, Tanzania, Timor-Leste, Togo, Tuvalu, Uganda, Vanuatu, Yemen, or Zambia); or

(4) A Caribbean Basin country (Antigua and Barbuda, Aruba, Bahamas, Barbados, Belize, Bonaire, British Virgin Islands, Curacao, Dominica, Grenada, Guyana, Haiti, Jamaica, Montserrat, Saba, St. Kitts and Nevis, St. Lucia, St. Vincent and the Grenadines, Sint Eustatius, Sint Maarten, or Trinidad and Tobago).

Designated country construction material means a construction material that is a WTO GPA country construction material, an FTA country construction material, a least developed country construction material, or a Caribbean Basin country construction material.

Domestic construction material means--

(1) An unmanufactured construction material mined or produced in the United States;

(2) A construction material manufactured in the United States, if--

(i) The cost of its components mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. Components of foreign origin of the same class or kind for which nonavailability determinations have been made are treated as domestic; or

(ii) The construction material is a COTS item.

Foreign construction material means a construction material other than a domestic construction material.

Least developed country construction material means a construction material that--

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

“Free Trade Agreement country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a Free Trade Agreement (FTA) country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a FTA country into a new and different construction material distinct from the materials from which it was transformed.

“Least developed country construction material” means a construction material that—

(1) Is wholly the growth, product, or manufacture of a least developed country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a least developed country into a new and different construction material distinct from the materials from which it was transformed.

United States means the 50 States, the District of Columbia, and outlying areas.

WTO GPA country construction material means a construction material that--

(1) Is wholly the growth, product, or manufacture of a WTO GPA country; or

(2) In the case of a construction material that consists in whole or in part of materials from another country, has been substantially transformed in a WTO GPA country into a new and different construction material distinct from the materials from which it was transformed.

(b) Construction materials.

(1) This clause implements 41 U.S.C. chapter 83, Buy American, by providing a preference for domestic construction material. In accordance with 41 U.S.C. 1907, the component test of the Buy American statute is waived for construction material that is a COTS item. (See FAR 12.505(a)(2)). In addition, the Contracting Officer has determined that the WTO GPA and Free Trade Agreements (FTAs) apply to this acquisition. Therefore, the Buy American restrictions are waived for designated country construction materials.

(2) The Contractor shall use only domestic or designated country construction material in performing this contract, except as provided in paragraphs (b)(3) and (b)(4) of this clause.

(3) The requirement in paragraph (b)(2) of this clause does not apply to information technology that is a commercial item or to the construction materials or components listed by the Government as follows:

NONE

(4) The Contracting Officer may add other foreign construction material to the list in paragraph (b)(3) of this clause if the Government determines that--

(i) The cost of domestic construction material would be unreasonable. The cost of a particular domestic construction material subject to the restrictions of the Buy American statute is unreasonable when the cost of such material exceeds the cost of foreign material by more than 6 percent;

(ii) The application of the restriction of the Buy American statute to a particular construction material would be impracticable or inconsistent with the public interest; or

(iii) The construction material is not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities of a satisfactory quality.

(c) Request for determination of inapplicability of the Buy American statute.

(1)(i) Any Contractor request to use foreign construction material in accordance with paragraph (b)(4) of this clause shall include adequate information for Government evaluation of the request, including--

(A) A description of the foreign and domestic construction materials;

(B) Unit of measure;

(C) Quantity;

(D) Price;

(E) Time of delivery or availability;

(F) Location of the construction project;

(G) Name and address of the proposed supplier; and

(H) A detailed justification of the reason for use of foreign construction materials cited in accordance with paragraph (b)(3) of this clause.

(ii) A request based on unreasonable cost shall include a reasonable survey of the market and a completed price comparison table in the format in paragraph (d) of this clause.

(iii) The price of construction material shall include all delivery costs to the construction site and any applicable duty (whether or not a duty-free certificate may be issued).

(iv) Any Contractor request for a determination submitted after contract award shall explain why the Contractor could not reasonably foresee the need for such determination and could not have requested the determination before contract award. If the Contractor does not submit a satisfactory explanation, the Contracting Officer need not make a determination.

(2) If the Government determines after contract award that an exception to the Buy American statute applies and the Contracting Officer and the Contractor negotiate adequate consideration, the Contracting Officer will modify the contract to allow use of the foreign construction material. However, when the basis for the exception is the unreasonable price of a domestic construction material, adequate consideration is not less than the differential established in paragraph (b)(4)(i) of this clause.

(3) Unless the Government determines that an exception to the Buy American statute applies, use of foreign construction material is noncompliant with the Buy American statute.

(d) Data. To permit evaluation of requests under paragraph (c) of this clause based on unreasonable cost, the Contractor shall include the following information and any applicable supporting data based on the survey of suppliers:

Foreign and Domestic Construction Materials Price Comparison

Construction material description	Unit of measure	Quantity	Price (dollars) \1\
Item 1:			
Foreign construction material....
Domestic construction material...
Item 2:			
Foreign construction material....
Domestic construction material...

\1\ Include all delivery costs to the construction site and any applicable duty (whether or not a duty-free entry certificate is issued).

List name, address, telephone number, and contact for suppliers surveyed. Attach copy of response; if oral, attach summary.

Include other applicable supporting information.

(End of clause)

52.252-1 SOLICITATION PROVISIONS INCORPORATED BY REFERENCE (FEB 1998)

This solicitation incorporates one or more solicitation provisions by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. The offeror is cautioned that the listed provisions may include blocks that must be completed by the offeror and submitted with its quotation or offer. In lieu of submitting the full text of those provisions, the offeror may identify the provision by paragraph identifier and provide the appropriate information with its quotation or offer. Also, the full text of a solicitation provision may be accessed electronically at this/these address(es):

- <https://www.acquisition.gov/far/>
- <http://www.acq.osb.mil/dpap/dfarspgi>
- <http://farsite.hill.af.mil/>

(End of provision)

252.232-7006 WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (MAY 2013)

(a) Definitions. As used in this clause--

Department of Defense Activity Address Code (DoDAAC) is a six position code that uniquely identifies a unit, activity, or organization.

Document type means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

Local processing office (LPO) is the office responsible for payment certification when payment certification is done external to the entitlement system.

(b) Electronic invoicing. The WAWF system is the method to electronically process vendor payment requests and receiving reports, as authorized by DFARS 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) WAWF access. To access WAWF, the Contractor shall--

(1) Have a designated electronic business point of contact in the System for Award Management at <https://www.acquisition.gov>; and

(2) Be registered to use WAWF at <https://wawf.eb.mil/> following the step-by-step procedures for self-registration available at this Web site.

(d) WAWF training. The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the "Web Based Training" link on the WAWF home page at <https://wawf.eb.mil/>.

(e) WAWF methods of document submission. Document submissions may be via Web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) WAWF payment instructions. The Contractor must use the following information when submitting payment requests and receiving reports in WAWF for this contract/order:

(1) Document type. The Contractor shall use the following document type(s).

Navy Construction Facilities Management Invoice (Stand-Alone)

(Contracting Officer: Insert applicable document type(s). Note: If a "Combo" document type is identified but not supportable by the Contractor's business systems, an "Invoice" (stand-alone) and "Receiving Report" (stand-alone) document type may be used instead.)

(2) Inspection/acceptance location. The Contractor shall select the following inspection/acceptance location(s) in WAWF, as specified by the contracting officer.

Inspection Location: TBD
Acceptance Location: TBD

(Contracting Officer: Insert inspection and acceptance locations or "Not applicable".)

(3) Document routing. The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

Field Name in WAWF	Data to be entered in WAWF
Pay Official DoDAAC	_____
Issue By DoDAAC	_____
Admin DoDAAC	_____
Inspect By DoDAAC	_____
Ship To Code	_____
Ship From Code	_____
Mark For Code	_____
Service Approver (DoDAAC)	_____
Service Acceptor (DoDAAC)	_____
Accept at Other DoDAAC	_____
LPO DoDAAC	_____
DCAA Auditor DoDAAC	_____
Other DoDAAC(s)	_____

(*Contracting Officer: Insert applicable DoDAAC information or “See schedule” if multiple ship to/acceptance locations apply, or “Not applicable.”)

(4) Payment request and supporting documentation. The Contractor shall ensure a payment request includes appropriate contract line item and subline item descriptions of the work performed or supplies delivered, unit price/cost per unit, fee (if applicable), and all relevant back-up documentation, as defined in DFARS Appendix F, (e.g. timesheets) in support of each payment request.

(5) WAWF email notifications. The Contractor shall enter the email address identified below in the “Send Additional Email Notifications” field of WAWF once a document is submitted in the system.

Email Address: elizabeth.carmack@navy.mil

(g) WAWF point of contact. (1) The Contractor may obtain clarification regarding invoicing in WAWF from the following contracting activity's WAWF point of contact.

TBD

(2) For technical WAWF help, contact the WAWF helpdesk at 866-618-5988.

(End of clause)

5252.201-9300 CONTRACTING OFFICER AUTHORITY (JUN 1994)

In no event shall any understanding or agreement between the Contractor and any Government employee other than the Contracting Officer on any contract, modification, change order, letter or verbal direction to the Contractor be effective or binding upon the Government. All such actions must be formalized by a proper contractual document executed by an appointed Contracting Officer. The Contractor is hereby put on notice that in the event a Government employee other than the Contracting Officer directs a change in the work to be performed, it is the Contractor’s responsibility to make inquiry of the Contracting Officer before making the deviation. Payments will not be made without being authorized by an appointed Contracting Officer with the legal authority to bind the Government.

5252.209-9300 ORGANIZATIONAL CONFLICTS OF INTEREST (JUN 1994)

The restrictions described herein shall apply to the Contractor and its affiliates, consultants and subcontracts under this contract. If the Contractor under this contract prepares or assists in preparing a statement of work, specifications and plans, the Contractor and its affiliates shall be ineligible to bid or participate, in any capacity, in any contractual effort which is based on such statement of work or specifications and plans as a prime contractor, subcontractor, consultant or in any similar capacity. The Contractor shall not incorporate its products or services in such statement of work or specification unless so directed in writing by the Contracting Officer, in which case the restriction shall not apply. This contract shall include this clause in its subcontractor's or consultants' agreements concerning the performance of this contract.

5252.209-9300 ORGANIZATIONAL CONFLICTS OF INTEREST (ALT I)(JUN 1994)

(a) The restrictions described herein shall apply to the Contractor and its affiliates, consultants and subcontracts under this contract. If the Contractor under this contract prepares or assists in preparing a statement of work, specifications and plans, the Contractor and its affiliates shall be ineligible to bid or participate, in any capacity, in any contractual effort which is based on such statement of work or specifications and plans as a prime contractor, subcontractor, consultant or in any similar capacity. The Contractor shall not incorporate its products or services in such statement of work or specification unless so directed in writing by the Contracting Officer, in which case the restriction shall not apply. This contract shall include this clause in its subcontractor's or consultants' agreements concerning the performance of this contract.

(b) Some remedial action may be performed by the Architect-Engineer contractor in order to prevent continued contamination which immediately endangers population or property.

(c) The contractor shall provide a statement with his bid or proposal which concisely describes all relevant facts concerning any past, present, or currently planned interest (financial, contractual, organizational, or otherwise) relating to the work to be performed hereunder. The contractor warrants that, to the best of the Contractor's knowledge and belief, there are no relevant facts or circumstances which could give rise to an organizational conflict of interest, as defined in FAR Subpart 9.5, or that the Contractor has disclosed all such relevant information prior to award. If a potential conflict is discovered after award, the Contractor shall make a full disclosure in writing to the Contracting Officer. The disclosure shall include a description of action which the Contractor proposes to take, after consultation with the Contracting Officer, to avoid, mitigate, or neutralize the conflict of interest.

(d) In addition, the Contractor shall notify the Contracting Officer, in writing, of its intention to compete for, or accept the award of any contract for similar or related work for any Department of Defense, other Agency of the federal government, or state regulatory agency which may involve Navy sites. Such notification shall be made before the Contractor either competes for or accepts any such contract.

(e) Remedies: The Government may terminate this contract for convenience, in whole or in part, if it deems such termination necessary to avoid an organizational conflict of interest. If the Contractor was aware of a potential organization conflict of interest prior to award or discovered an actual or potential conflict after award and did not disclose or misrepresented relevant information to the Contracting Officer, the Government may terminate the contract for default, or debar the Contractor from Government contracting, or pursue such other remedies as may be permitted by law or this contract.

(f) The Contractor further agrees to insert in any subcontract or consultant agreement hereunder, provisions which shall conform substantially to the language of this clause, including this paragraph (f).

5252.228-9300 INDIVIDUAL SURETY/SURETIES (JUN 1994)

As prescribed in FAR 28.203(a), individual sureties will be permitted. In order for the Contracting Officer to make a determination as to the acceptability of individuals proposed as sureties, as prescribed in FAR 28.203(b), all proposers who submit bonds which are executed by individual sureties are requested to furnish additional information in support of SF-28, Affidavit of Individual Surety, with the bonds. Pursuant to Instruction 3(b) of Standard Form 24, the Bond, Standard Form 25A, the Payment Bond, the Contracting Officer requests the following information:

(a) Equity Securities (Stock):

(1) State the place(s) of incorporation and address of the principal place of business for each issuing corporation listed.

(2) State whether the security issued was issued by public or private offering and give the place of registration of the security.

(3) State whether the security is presently, actively traded.

(b) Debt Securities (Bonds) and Certificates of Deposit:

(1) List the type of bonds held and their maturity dates.

(2) State the name, address and telephone number of the issuing agency, firm or individual.

(3) State the complete address(es) where the bonds are held.

(4) State whether the bonds have been pledged as security or otherwise been encumbered.

(c) Real Property Interests:

(1) Provide complete recording data for the conveyance of each parcel or interest listed to the individual proposed surety.

(2) State whether the values listed are based upon personal evaluation or evaluation of an experienced real estate appraiser. If available, provide copies of written appraisals.

(3) State the method(s) of valuation upon which appraisal is based.

(4) Provide the assessed value of each property interest listed utilized by the appropriate tax assessor for purposes of property taxation.

(5) Provide the telephone number, including area code, for the tax assessor who performed the most recent tax assessment.

(6) State whether each real property interest listed is currently under lien or in any way encumbered and the dollar amount of each such lien or encumbrance.

(d) Persons Proposed as Individual Sureties:

(1) A current list of all other bonds (bid, performance and payment) on which the individual is a surety and bonds for which the individual is requesting to be a surety.

(2) A statement as to the percent of completion of projects for which the individual is bound on a performance bond.

This information is necessary to enable the Contracting Officer to evaluate the sufficiency of the surety's net worth in a timely manner.

5252.228-9302 BID GUARANTEE (OCT 2004)

To assure the execution of the contract and the performance and payment bonds, each bidder/offeror shall submit with its bid/offer a guarantee bond (SF 24) executed by a surety company holding a certificate of authority from the Secretary of the Treasury as an acceptable surety, or other security provided in FAR Clause 52.228-1, "Bid Guarantee". Security shall be in a penal sum equal to at least **20** percent of the largest amount for which award can be made under the bid submitted, but in no case to exceed **\$3,000,000**. A copy of the agent's authority to sign bonds for the surety company shall accompany the bid guarantee bond. (End of provision)

5252.228-9305 NOTICE OF BONDING REQUIREMENTS (DEC 2000)

Within **15** days of receipt of award, the bidder/offeror to whom the award is made shall furnish the following bond(s) each with satisfactory security:

XX A Performance Bond (Standard Form 25). The performance bond shall be in a penal sum equal to 100% percent of the contract price.

XX A Payment Bond (Standard Form 25A). The payment bond shall be in a penal sum equal to 100% of the contract price.

Any surety company holding a certificate of authority from the Secretary of Treasury as an acceptable Surety on Federal bonds will be accepted. Individual sureties will be permitted as prescribed in FAR 28.203 and FAC 5252.228-9300. Alternative types of security in lieu of furnishing sureties on performance and/or payment bonds will be permitted as prescribed in FAR 28.204, and will be held for at least one year after the completion of the contract. Additional bond security may be required as prescribed in FAR 52.228-2. Bonds shall be accompanied by a document authenticating the agent's authority to sign bonds for the surety company.

The contract time for purposes of fixing the completion date, default and liquidated damages shall begin to run **850** days from the date of award, regardless of when performance and payment bonds or deposits in lieu of surety are executed.

5252.236-9301 SPECIAL WORKING CONDITIONS AND ENTRY TO WORK AREA (OCT 2004)

The Government under certain circumstances may require denial of entry to the work areas under this contract where the Contractor's work or presence would constitute a safety or security hazard to ordnance storage or handling operations. Restrictions covering entry to and availability of the work areas are as follows:

- (a) Entry. Entry to work areas located within the special Security Limited areas, defined as those work areas located within the existing security fence, can be granted subject to special personnel requirements as specified herein and to other normal security and safety requirements. Complete denial of entry to the Limited Area may be required during brief periods of one to two hours (normally) and on rare occasions of two to four hours. For bidding purposes, the Contractor shall assume denial of entry to the work areas in the Limited Area of six 2-hour denials and one 4-hour denial per month.

- (b) Vehicle Delay. The Contractor shall also assume for bidding purposes that, in addition to site denial, each vehicle and/or unit of construction equipment will be delayed during each movement through the security gate, both entering and leaving the limited area. Delays will average **45 minutes**.

(b) Operational Considerations. To reduce delay time while preserving required security, the following points should be considered in operational planning:

(1) Vehicle Search. Security regulations required that all vehicles, when authorized to enter the Limited Area be thoroughly searched by guard force personnel. Such a search will be required for all vehicle/construction equipment. Accordingly, once a vehicle or unit of construction equipment has been cleared, it may be left in the Limited Area after initial entry has been made. For the period of time authorized the vehicle/equipment left in the Limited Area will be assigned parking areas by the Contracting Officer. The vehicle/equipment must be secured as specified in paragraph entitled "SECURITY REQUIREMENTS." The intent is to reduce the Contractor loss of time at the security gate. No private vehicles will be allowed to enter the Limited Area.

(2) Delivery Vehicles. Guard force personnel will inspect vehicles delivering construction materials while the driver is being processed for entry into the Limited Area.. A Security Escort will then escort the driver and vehicle in the Limited Area. To provide this service, delivery schedules should be promulgated in advance and vendors made aware that a reasonable delay can be expected if delivery is other than the time specified. Deliveries after 1600 hours will not be allowed entry into the Limited Area without prior approval of the Physical Security Officer.

5252.236-9303 ACCIDENT PREVENTION (NOV 1998)

(a) The Contractor will maintain an accurate record of, and will report to the Contracting Officer in the manner and on the forms prescribed by the Contracting Officer, all accidents resulting in death, traumatic injury, occupational disease, and damage to property, materials, supplies and equipment incident to work performed under this contract.

(b) Compliance with the provisions of this article by subcontractors will be the responsibility of the Contractor.

(c) Prior to commencement of the work, the Contractor may be required to:

(1) submit in writing his proposals for effectuating provision for accident prevention;

(2) meet in conference with representatives of the Contracting Officer to discuss and develop mutual understandings relative to administration of the overall safety program.

5252.236-9305 AVAILABILITY OF UTILITIES (JUN 1994)

When available, the government will furnish reasonable amounts of the following utilities for the work to be performed under this contract at no cost to the Contractor. Information concerning the location of existing outlets may be secured from the OIC. The Contractor shall provide and maintain, at his expense, the necessary service lines from existing Government outlets to the site of work.

Electric - Water - Compressed Air

Contractor Furnished Utilities: In the event that the Government is unable to provide the required types of utilities, the Contractor shall, at his expense, arrange for the required utilities.

Contractor Energy Conservation: The Contractor shall be directly responsible for instructing employees in utilities conservation practices. The Contractor shall be responsible for operating under conditions which preclude the waste of utilities, which shall include:

- a. Lights shall be used only in areas where and at the time when work is actually performed.
- b. Mechanical equipment controls for heating, ventilation and air conditioning systems will not be adjusted by the workers.
- c. Water faucets or valves shall be turned off after the required usage has been accomplished.

Telephone Lines. Telephone lines for the sole use of the Contractor will not be available. Government telephones shall not be used for personal reasons.

Contractor Availability. The Contractor shall maintain a telephone at which he or his representative may be reached 24 hours daily. The telephone shall be listed in the contractor's name. If the Contractor does not have a local telephone, he shall maintain a toll free emergency telephone (or accept collect calls from authorized Government personnel) at which he or his representative may be reached at night, weekends and holidays. It is mandatory that the Contractor or his representative be available to a toll-free telephone 24 hours per day, seven days per week, including holidays. He shall notify the OIC in writing of the mailing address and telephone number within three days after award of this contract and immediately thereafter in the event of change.

5252.236-9310 RECORD DRAWINGS (Oct 2004)

The Contractor shall maintain at the job site two sets of full-size prints of the contract drawings, accurately marked in red with adequate dimensions, to show all variations between the construction actually provided and that indicated or specified in the contract documents, including buried or concealed construction. Special attention shall be given to recording the horizontal and vertical location of all buried utilities that differ from the final government-accepted drawings. Existing utility lines and features revealed during the course of construction, shall also be accurately located and dimensioned. Variations in the interior utility systems shall be clearly defined and dimensioned; and coordinated with exterior utility connections at the building five-foot line, where applicable. Existing topographic features which differ from those shown on the contract drawings shall also be accurately located and recorded. Where a choice of materials or methods is permitted herein, or where variations in scope or character of methods is permitted herein, or where variations in scope or character of work from that of the original contract are authorized, the drawings shall be marked to define the construction actually provided. The representations of such changes shall conform to standard drafting practice and shall include such supplementary notes, legends and details as necessary to clearly portray the as-built construction. These drawings shall be available for review by the Contracting Officer at all times. Upon completion of the work, both sets of the marked up prints shall be certified as correct, signed by the Contractor, and delivered to the Contracting Officer for his approval before acceptance. Requests for partial payments will not be approved if the marked prints are not kept current, and request for final payment will not be approved until the market prints are delivered to the Contracting Officer.

5252.236-9310 Record Drawings ALT II (OCT 2004)

As prescribed in 36.5100(g)(1), when a Design-Built contract is used replace with the following:

“Upon completion of the work, both sets of the marked up prints shall be certified as correct, signed by the Contractor, and delivered to the Contracting Officer for his approval before acceptance. Requests for partial payments will not be approved if the marked prints are not kept current, and request for final payment will not be approved until the marked prints are delivered to the Contracting Officer.”

5252.236-9312 DESIGN-BUILD CONTRACT- ORDER OF PRECEDENCE (AUGUST 2006)

As prescribed in 36.5100(g), insert the following clause:

(A) In the event of a conflict or inconsistency between any of the below described portions of the conformed contract, precedence shall be given in the following order:

- (1) Any portions of the proposal or final design that exceed the requirements of the solicitation.
 - (a) Any portion of the proposal that exceeds the final design.
 - (b) Any portion of the final design that exceeds the proposal.
 - (a) Where portions within either the proposal or the final design conflict, the portion that most exceeds the requirements of the solicitation has precedence.

- (2) The requirements of the solicitation, in descending order of precedence:
 - (a) Standard Form 1442, Price Schedule, and Davis Bacon Wage Rates.
 - (b) Part 1 - Contract Clauses.
 - (c) Part 2 - General Requirements.
 - (d) Part 3 - Project Program Requirements.
 - (e) Part 6 - Attachments (excluding Concept Drawings).
 - (f) Part 5 - Prescriptive Specifications exclusive of performance specifications.
 - (g) Part 4 - Performance Specifications exclusive of prescriptive specifications.
 - (h) Part 6 - Attachments (Concept Drawings).

(B) Government review or approval of any portion of the proposal or final design shall not relieve the contractor from responsibility for errors or omissions with respect thereto.

(END OF CLAUSE)

5252.236-9313 Design-Build Contract - Incorporation of Designer-of-Record Final Design (Jul 2008). As prescribed in 36.5100(i), insert the following clause:

DESIGN-BUILD CONTRACT – INCORPORATION OF DESIGNER OF RECORD FINAL DESIGN (JUL 2008)

Upon Government receipt and acceptance of the Designer of Record signed and stamped final design submission for all work, a no-cost unilateral modification shall be issued to incorporate the final design into the contract.

If the Contractor is authorized to proceed with portions of the work prior to the completion of a final design for all work, a no-cost unilateral modification shall be issued for each Government accepted Designer of Record signed and stamped design submission for each portion of the work in order to incorporate that design submittal into the contract. (End of clause)

5252.242-9300 GOVERNMENT REPRESENTATIVES (OCT 1996)

a. The contract will be administered by an authorized representative of the Contracting Officer. In no event, however, will any understanding or agreement, modification, change order, or other matter deviating from the terms of the contract between the contractor and any person other than the Contracting Officer be effective or binding upon the Government, unless formalized by proper contractual documents executed by the Contracting Officer prior to completion of this contract. The authorized representative as indicated hereinafter:

XX 1. The Contracting Officer's Representative (COR) will be designated by the Contracting Officer as the authorized representative of the Contracting Officer. The COR is responsible for monitoring performance and the technical management of the effort required hereunder, and should be contacted regarding questions or problems of a technical nature.

XX 2. The designated Contract Specialist will be the Administrative Contracting Officer's representative on all other contract administrative matters. The Contract Specialist should be contacted regarding all matters pertaining to the contract or delivery orders.

3. The designated Property Administrator is the Administrative Contracting Officer's representative on property matters. The Property Administrator should be contacted regarding all matters pertaining to property administration.

5252.242-9305, PRE-PERFORMANCE CONFERENCE (JUL 1995)

Within 15 days of contract award, prior to commencement of the work, the Contractor will meet in conference with representatives of the Contracting Officer, at a time to be determined by the Contracting Officer, to discuss and develop mutual understanding relative to scheduling and administering work.

Elevating; Grader, Motor Grader, Motor Patrol, Auto Patrol, Form Grader, Pull Grader, Subgrader; Guard Rail Post Driver mounted; Hoists, one, two, and three Drum; Hydraulic Backhoes; Locomotive, all Mucking Machine; Pile Drivers and Skid Rig; Pre-Stress Machine; Pump Cretes Dual Ram; Rock Drill-Crawler or Skid Rig; Rock Drill truck mounted; Roto Mill Grinder, 36" and over; Roto Mill Grinder, less than 36"; Slip- Form Paver; Soil Test Drill Rig, truck mounted; Straddle Buggies; GCI Crane and similar; Hydraulic Telescoping Form (tunnel); Tie Back Machine; Tractor Drawn Belt Loader: Tractor Drawn Belt Loader with attached Pusher; Tractor with boom; Tractaire with attachment; Traffic Barrier Conveyor Machine; Raised or Blind Hoe Drill (Tunnel & Shaft); Trenching Machine; Truck Mounted Concrete Pump with boom; Truck mounted Concrete Conveyor; Underground Boring and/or Mining Machines under 5 ft; Wheel Excavator & Widener (Apsco)

GROUP 2: Batch Plant; Bituminous Mixer; Bobcats over .75 cu yd; Boiler and Throttle Valve; Bulldozer; Car Loader Trailing Conveyors; Combination Backhoe Front End Loader Machine, less than 1 cu yd Backhoe Bucket with attachments; Compressor and Throttle Valve; Compressor, common receiver (3); Concrete Breaker or Hydro Hammer; Concrete Grinding Machine; Concrete Mixer or Paver 7S series to and including 27 cu ft; Concrete Spreader; Concrete Curing Machine, Burlap Machine; Belting Machine and Sealing Machine; Conveyor Muck Cars (Haglund or similar type); Finishing Machine-Concrete; Greaser Engineer; Highlift Shovels or Front End Loader; Hoist-Sewer Dragging Machine; Hydraulic Boom Trucks, all attachments; Locomotives, Dinky; Pump Cretes, Squeeze Cretes-Screw Type pumps, Gypsum Bulker and Pump; Roller Asphalt; Rotary Snow Plows; Rototiller, Seaman, etc self-Propelled; Scoops-Tractor Drawn; Self-propelled Compactor; Spreader-Chip- Stone etc; Scraper; Scraper-Prime Mover in Tandem regardless of size (add \$1.00 to to Group 2 hourly rate for each hour and for each machine attached thereto); Tank Car Heater; Tractors, Push, pulling Sheeps Foot, Disc, or Compactor, etc; Tug Boats

GROUP 3: Boilers; Brooms, all power propelled; Cement Supply Tender; Compressor, Common Receiver (2); Concrete Mixer, two bag and over; Conveyor, Portable; Farm type Tractors used for mowing, seeding, etc; Fireman on Boilers; Forklift Trucks; Grouting Machines; Hoists, Automatic; Hoists, all Elevators; Hoists, Tugger single Drum; Jeep Diggers; Pipe Jacking Machines; Post- hole Digger; Power Saw, Concrete, Power Driven; Pug Mills; Rollers, other than asphalt; Seed

and Straw Blower; Steam Generators; Stump Machine; Winch Trucks with A-Frame; Work Boats; Tamper-Form motor driven

GROUP 4: Air compressor - Small 185 and under (1 to 5 not to exceed a total of 300 ft); Air Compressor - Large over 185; Asphalt Spreader Backend Man; Combination - Small Equipment Operator; Generators - Small 50 kw and under; Generators - Large , over 50 kw; Heaters, Mechanical; Hydraulic power unit (Pile Driving, Extracting or Drilling); Light Plants All (1 to 5); Pumps, over 3" (1 to 3, not to exceed a total of 300 ft); Pumps, Well Points; Tractaire; Welding Machines (2 through 5); Winches, 4 small electric drill winches; Bobcats up to and including .75 cu yd

GROUP 5: Oilers

PREMIUM PAY:

Long Boom :

Cranes & Derricks 90' to 150' including jib receive an extra \$.50 per hour. Cranes & Derricks over 150' including jib receive an extra \$.50 per hour plus an additional \$.10 for each additional 10' of boom or jib.

Capacity Pay: Cranes & Derricks with maximum capacity exceeding 50 ton with less than 90' of boom or jib shall be compensated \$.01 per hour for each ton of the rated capacity in excess of 50 ton.

Long Boom pay and Capacity pay cannot be combined.

Crane mounted earth auger, raised and blind hole drills, and truck mounted drill rigs receive an extra \$.50 per hour.

Creter Cranes:

When the Creter Crane is equipped with a conveyor system capable of extending 70' or more, the engineer shall receive an extra \$.50 per hour.

Truck Mounted Concrete Pumps:

When the Truck Mounted Concrete Pump is equipped with a boom, which is capable of extending 90' or more, the engineer shall receive \$.50 per hour extra.

Truck Mounted Concrete Conveyor:

Truck Mounted Concrete Conveyors equipped with conveyors that are capable of extending 90' or more, the engineer shall receive an extra \$.50 per hour.

Underground Work:

Employees working in tunnels, shafts, etc. shall be paid an additional \$.40 per hour. Employees working under air pressure 1/2 pound to 7 pounds shall receive an additional \$.50 per hour. Employees working under air pressure of 7 pounds or over shall receive \$.65 per hour more.

Mining Machines- Boring Machines:

The crew operating and maintaining the Mining Machines shall be compensated an additional \$.50 per hour.

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of "identifiers" that indicate whether the particular rate is union or non-union.

Union Identifiers

An identifier enclosed in dotted lines beginning with characters other than "SU" denotes that the union classification and rate have found to be prevailing for that classification. Example: PLUM0198-005 07/01/2011. The first four letters , PLUM, indicate the international union and the four-digit number, 0198, that follows indicates the local union number or district council number where applicable , i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. The date, 07/01/2011, following these characters is the effective date of the most current negotiated rate/collective bargaining agreement which would be July 1, 2011 in the above example.

Union prevailing wage rates will be updated to reflect any changes in the collective bargaining agreements governing the rates.

0000/9999: weighted union wage rates will be published annually each January.

Non-Union Identifiers

Classifications listed under an "SU" identifier were derived from survey data by computing average rates and are not union rates; however, the data used in computing these rates may include both union and non-union data. Example: SULA2004-007 5/13/2010. SU indicates the rates are not union majority rates, LA indicates the State of Louisiana; 2004 is the year of the survey; and 007 is an internal number used in producing the wage determination. A 1993 or later date, 5/13/2010, indicates the classifications and rates under that identifier were issued as a General Wage Determination on that date.

Survey wage rates will remain in effect and will not change until a new survey is conducted.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour Regional Office for the area in which the survey was conducted because those Regional Offices have responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal

process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
