

Solicitation Administrative Notice #06

Disclaimer: The government provides this Solicitation Administrative Notice via FedBizOps, as a courtesy to industry, to clarify a few minor administrative actions regarding this actual Amendment 04 to the formal RFP N61340-16-R-0007.

Question 42: After reviewing amendment 0004 that was released last night, I noticed that the SLE and LE labor categories rates on Attachment L-5 decreased versus increased and was then justified in your amendment. We are extremely concerned about the decrease in rates in response to our request to increase; however, we noticed you have not provided the revised Attachment L-5 showing all the "DOL" rates. Please advise if that is going to be released as it was not released in Amendment 0004 on the FBO.gov website.

Government Response: Attachment L-5 was not uploaded with Amendment 04 because it was not revised from the version posted with Amendment 03.
