19-May-15	Kimrick Performance Group, LLC	Section 00100 - Bidding Schedule / Instructions to Bidders: D. Evaluation Factors for Award: Definition of A Relevant Project (Page 10 of the RFP, Paragraph 3)	<p>To ensure the Government receives proposals that are found to be technically acceptable can the relevant projects of subcontractors and relevant projects of the offeror as a subcontractor be allowed to satisfy the corporate experience requirement?</p> <p>As a Total Small Business it appears that the current requirements are very restrictive and may limit the opportunity for Total Small Businesses to be technically acceptable. A Total Small Business cannot gain experience without the opportunity for experience.</p>	The government is seeking prime contractors experienced in airfield paving. Relevant projects of subcontractors, or relevant projects of the offeror as a subcontractor or anything other than the prime contractor, will not satisfy the corporate experience requirement.	No	0001
