

**FOR USE ON MARCORSYSCOM & MARCOR I&L
PROCUREMENT ACTIONS**

SOLE SOURCE JUSTIFICATION FOR SIMPLIFIED ACQUISITIONS

1. The repair, replacement, and maintenance of emergency call boxes listed on M00318-11-RC-DV221 is available from only one source and competition is precluded for reasons indicated below. There are no substitutes available.

2. This acquisition is restricted to the following source:

Manufacturer: CASE Systems inc.
Manufacturer POC and Phone Number: 949-268-1865 x 403
Manufacturer Address: 18 Morgan, Irvine, CA 92618
Manufacturer's Dealer/Representative: Chrisann Lawson
Dealer/Representative Address and Phone Number: 949-268-1865 x 403

3. Description of the repair, replacement, and maintenance of emergency call boxes required, the estimated cost, and required delivery date.

The Contractor shall repair and test and provide maintenance to all damaged GSM Emergency Call Boxes at 15 key locations throughout MCBH Kaneohe Bay. Contractor shall install GSM to CDMA conversion kits on all call boxes

██████████ for Repairs and upgrades
██████████ for Maintenance Option
██████████ Total cost

4. Specific characteristics of the repair, replacement, and maintenance of emergency call boxes that limit the availability to a sole source e.g., unique features, function of the item, etc. Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

CASE Systems is the sole manufacturer and supplier of the Lexan solar powered emergency call box systems. Case Systems is also the sole manufacturer, supplier and patent holder of call box system firmware currently installed on the Lexan emergency call box systems aboard MCBH. These systems are necessary for the use of contacting first responders in case of emergencies within the staged areas of each box.

5. Check and fill in all that are applicable:

- The material or service must be compatible in all aspects (form, fit, and function) with existing systems presently installed. Describe the equipment you have now and how the new item/service must coordinate, connect, or interface with the existing system:

- ✓ A patent, copyright, or proprietary data limits competition. The proprietary data are described as follows:

Lexan emergency call box firmware patent is held solely by CASE Systems

- These are "direct replacement" parts/components for existing equipment.

- ✓ Other information to support a sole-source buy:

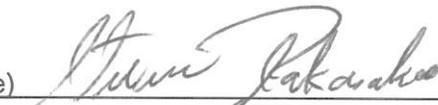

CASE Systems is the only company capable of replacing subcomponents within the Emergency call box system, which in turn provides a considerable cost savings to the government. This repair/replace service is in the best interest of the government.

CERTIFICATION

I certify that statements checked and information provided above are complete and correct to the best of my knowledge. I understand that the processing of this Sole-Source Justification precludes the use of full and open competition.
