3. Description of the Motorola XTS5000/ Upgrade from conventional to smartzone T6747-Q3227BE/ Q361 Upgrade to 9600 IP trunked operation. required, the estimated cost, and required delivery date.

The requested company is the sole provider for IIMEF G-4 MMCC's 19 Motorola XTS 5000 hand held radio upgrade software totaling \$16075.30.

4. Specific characteristics of the Motorola XTS5000/ Upgrade from conventional to smartzone T6747-Q3227BE/ Q361 Upgrade to 9600 IP trunked operation. that limit the availability to a sole source e.g., unique features, function of the item, etc. Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

The requested provider mention above is the sole manufacture of the radio and the specific upgrades. These upgrades are needed to work with the existing wide-area two-way radio systems and to comply with the planned infrastructure of Camp Lejeune and Cherry Point Air Station (CPAS) aswell as shilding communications through incryption as to allow Marines to speak on troop movements, air operations, and port operations. to and from CPAS, Camp Lejeune, and Moorehead City Port (MHCP).

5. Check and fill in all that are applicable:

- The material or service must be compatible in all aspects (form, fit, and function) with existing systems presently installed. Describe the equipment you have now and how the new item/service must coordinate, connect, or interface with the existing system:

A patent, copyright, or proprietary data limits competition. The proprietary data are described as follows:

These are "direct replacement" parts/components for existing equipment.

Other information to support a sole-source buy:

CERTIFICATION

I certify that statements checked and information provided above are complete and correct to the best of my knowledge. I understand that the processing of this Sole-Source Justification precludes the use of full and open competition.
