IN REPLY REFER TO:

MCLC 13252

SOLE SOURCE JUSTIFICATION FOR SIMPLIFIED ACQUISITIONS

1. The material listed on M94705-12-RC-00105 is available from only one source and competition is precluded for reasons indicated below. There are no substitutes available.

2. This acquisition is restricted to the following source:

Manufacturer: **BARR SYSTEMS, INC.**

Manufacturer POC and Phone Number:

SUSAN FALSETTI (352) 491-3169; FAX (352) 491-3141

Manufacturer Address:

4500 NW 27 Avenue, BLDG A; Gainesville, FL 32606

Manufacturer's Dealer/Representative:

Ed Greissle, Director of Sales

ed.greissle@barrsystems.com

Dealer/Representative Address and Phone Number:

4500 NW 27 Avenue; Gainesville, FL 32606

Phone: (352) 491-3100

FAX: (352) 491-3141

3. Description of the item required and required delivery date.

P/N EOM-CORE: (1) Barr EOM v3.1

P/N MEOM-CORE: (1) Standard ASA (New) (Months 12) ASA for Barr EOM

P/N EOM-NJE: (1) EOM NJE over IP (Open Market) (1) EOM-NJE NJE Connection to Mainframe with (1)EE Link

P/N ASA-NEW: (1) ASA-NEW Standard ASA (New) (Months 12) 1 ASA for NJE Connection to Mainframe

P/N EOM-SVC-H: (1) Professional Services to include travel and expenses

The statutory authority permitting other than full and open competition is 10 U.S.C. Section 2304 (c)(1), as implemented by the Federal Acquisition Regulation (FAR) 6.302-1, Only one responsible source and no other supplies or services will satisfy agency requirements.

Required Delivery Date 23 July 2012 - 22 July 2013

4. Specific characteristics of the material that limit the availability to a sole source e.g., unique features, function of the item, etc. Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

The datacenter is currently in the process of migrating from Windows server 2003 to Windows Server 2008. This is a mandate pushed down from a directive to comply with Marine Corps. The current BARR Print application will not allow the datacenter to comply with this mandate so it must be migrated to a higher level. There is no alternative.

BARR SYSTEMS, INC. is the sole manufacturer of the required material. BARR SYSTEM, INC on-site professional service Part Number EOM-SVC-H must be procured to implement and configure the application to replace/upgrade the current solution and train the data center team on the maintenance and issue-resolution of BARR's software and hardware. The current server will be replaced with a virtual server that will reduce the foot print in the datacenter. Purchase of the required material manufactured by BARR SYSTEMS, INC. will avoid BARR Print shut-down by HQMC C4 of the required Mainframe print solution.

5. Check and fill in all that are applicable:

- The material or service must be compatible in all aspects (form, fit, and function) with existing systems presently installed. Describe the equipment you have now and how the new item/service must coordinate, connect, or interface with the existing system:

The current BARR Print application must be migrated to a higher level to comply with Marine Corps mandate to migrate Windows Server 2008. There is no alternative.

- A patent, copyright, or proprietary data limits competition. The proprietary data are described as follows:

BARR SYSTEMS, INC. is the sole manufacturer of the required material.

- These are "direct replacement" parts/components for existing equipment.

- Other information to support a sole-source buy:

The datacenter is currently in the process of migrating from Windows server 2003 to Windows Server 2008. This is a mandate pushed down from a directive to comply with Marine Corps. The current BARR Print application will not allow the datacenter to comply with this mandate so it must be migrated to a higher level. There is no alternative.

BARR SYSTEMS, INC. is the sole manufacturer of the required material. BARR SYSTEM, INC on-site professional service Part Number EOM-SVC-H must be procured to implement and configure the application to replace/upgrade the current solution. The current server will be replaced with a virtual server that will reduce the foot print in the datacenter. Purchase of the required material manufactured by BARR SYSTEMS, INC. will avoid BARR Print shut-down by HQMC C4 of the required Mainframe print solution.

CERTIFICATION

I certify that statements checked and information provided above are complete and correct to the best of my knowledge. I understand that the processing of this Sole-Source Justification precludes the use of full and open competition.
