1. The service listed on M94700-13-SU-00029 (Doc# M94700-2306-5644) is available from only one source and competition is precluded for reasons indicated below. There are no substitutes available.

2. This acquisition is restricted to the following source:

Manufacturer: DRS-Sensors and Targeting Systems

10600 Valley View St.
Cypress, CA 90630

3. Description of the material required, the estimated cost, and required delivery date.

End Item: M9 ACE vehicle

Estimated cost: \$26,250.00

Required Delivery: 30 Dec. 2012.

4. Specific characteristics of the service that limit the availability to a sole source e.g., unique features, function of the item, etc. Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

DRS-Sensors and Targeting Systems Inc. is the designer of the lens cover kits for the M9ACE. The drawing for the lens cover kits is proprietary to DRS. There are no other vendors known to the government that can provide the product.

5. Check and fill in all that are applicable:

- The material or service must be compatible in all aspects (form, fit, and function) with existing systems presently installed. Describe the equipment you have now and how the new item/service must coordinate, connect, or interface with the existing system:

Purchasing this material from DRS-Sensors and Targeting Systems will ensure these requirements are met and ensure safety and functionality of the vehicle camera in which the kit are installed. The requirement is for replacement kits for the M9ACE.

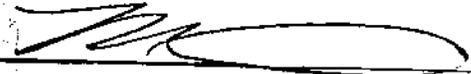

A patent, copyright, or proprietary data limits competition. The proprietary data are described as follows:

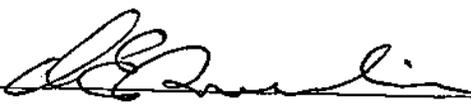

DRS-Sensors and Targeting Systems is the Original Engineer and Manufacturer (OEM) and owns the drawings and copyrights to the items requested.

- These are "direct replacement" parts/components for existing equipment.
