4. There is no technical data to cross reference the listed items to any other manufacturer. The government did not procure the technical data which is required to solicit other sources.

a. Check and fill in all that are applicable:

- The material or service must be compatible in all aspects (form, fit, and function) with existing systems presently installed. Describe the equipment you have now and how the new item/service must coordinate, connect, or interface with the existing system:

All components are provided by this source; therefore all the system components are compatible through fit form and function.

- A patent, copyright, or proprietary data limits competition. The proprietary data are described as follows:

All designs are held with the manufacturer and they hold the intellectual property rights.

- These are "direct replacement" parts/components for existing equipment.

The component sited in this contract is a direct replacement for the existing component.

- Other information to support a sole-source buy:

The source provided is the prime vendor for this item.

CERTIFICATION

I certify that statements checked and information provided above are complete and correct to the best of my knowledge. I understand that the processing of this Sole-Source Justification precludes the use of full and open competition.
