Solicitation M67400-16-T-0021

Q1: Previous Marine Corps Activities to include MCAS Iwakuni have procured a standard Skywatch Tower from FLIR without ballistic windows, is it the intent of the Gov't to procure a similar type system?

A1: MCAS Iwakuni doesn't have ballistic windows on the current towers.

Q2: The solicitation states under "Minimum Salient Characteristics" that "Materials: Steel cab with ballistic glass windows, "Rugged" exterior capable of withstanding regular exposure to elements.", is it a requirement that the steel cab be constructed of antiballistic material, and what level of ballistic protection should the cab and glass have?

A2: Tower cab should be made with steel to with stand a 5.56 round.
