

CAT & TWS Sources Sought

Question or Answer No.	Question/Issue/Concern
Question 1	My firm is interested in responding to this RFI for both the TWS and CAT. Is it required to respond to both the TWS and CAT in 1 white paper of 5 pages or is it acceptable to submit 2 white papers of 5 pages each (1 for TWS and 1 for CAT)?
Answer 1	The government will accept a five page “capability” paper for each segment of the prospective procurement (i.e. CAT or TWS module, CAT production, TWS production, CAT and TWS production). The intent of explaining both the TWS and CAT on a modular level was to allow for more competition by expanding the number of companies that have the capability to successfully complete a portion – or the entire – requirement.
