USS OHIO (SSGN 726) Underway with DDS-02P and DDS-04S

# Industry Day Ground Rules

- 1. Pre & Post Inspection Question & Answer sessions are scheduled as an open forum. All submitted questions should reference the appropriate Industry Day slide and/or paragraph of the draft RFP, if applicable. Any questions, information exchanges or discussions will be available to all potential offerers. The Government will post this information on Navy Electronic Commerce Online (NECO).**
- 2. Copies of the draft DDS Technical Support Services RFP were posted on NECO on 20 Jan 2012. Comments against the draft RFP and Technical Specification are requested to be submitted to NAVSEA in writing prior to 23 Feb 2012. Comments should reference the appropriate page and/or paragraph of the RFP or Technical Specification. Any comments received after this date may not be included in the formal RFP.**

**The Material contained herein is provided for Information Purposes Only and is Non-Binding. The final RFP and resultant contract may reflect differences from this presentation.**

# Industry Day Ground Rules (Continued)

3. This meeting and all associated briefing materials, are unclassified. However, all attendees should be aware that several aspects of the DDS and its Host Submarine (HOSUB) are classified. Classified Government Furnished Information may be requested per the NECO announcement.
4. Discussions will be limited to the DDS Technical & Maintenance Support Services Contract only.

**The Material contained herein is provided for Information Purposes Only and is Non-Binding. The final RFP and resultant contract may reflect differences from this presentation.**

# Industry Day Ground Rules (Continued)
