

5. DEMONSTRATION OF CONTRACTOR'S UNIQUE QUALIFICATIONS: The current Acquisition Method Code (AMC/AMCS) is 3R. This acquisition will be negotiated with: (73030) HAMILTON SUNDSTRAND CORP

Only the above will be solicited because the articles to be acquired are highly specialized parts, designed and manufactured by a non-Government activity and the technical data required for the above acquisition by other than the above is not available.

6. GOVERNMENTWIDE POINT OF ENTRY NOTICE/POTENTIAL SOURCES:

The proposed contract was/will be posted at the Governmentwide Point of Entry.

7. DETERMINATION OF FAIR AND REASONABLE COST:

The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. Certified cost and pricing data will be obtained and used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: A technical review has been made to determine and identify all known sources. There are no other sources after technical review. The technical review consisted of searching the Contractor Integrated Technical Information Service (CITIS) database, CDMD-OA (Configuration Data Managers Database - Open Architecture), ITIMP (Integrated Technical Item Management & Procurement) System, EIS (Engineering Information System), Naval Ships Engineering Drawing Repository (NSED) database, ERP, WEBFLIS and LMS-21. The results of the market research have been documented in the contract file.

9. ANY OTHER SUPPORTING FACTS: The articles to be procured are complex and must meet operational and reliability requirements, the achievement of which requires unique production techniques and extensive and/or sophisticated testing. The Government does not own the data or the rights to the data needed to purchase this part from additional sources. It has been determined to be uneconomical to buy the data or rights to the data. It is uneconomical to reverse engineer the part. This code is used when the Government did not initially purchase the data and/or rights.

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition:

"None at this time."

11. ACTIONS TO REMOVE BARRIERS TO COMPETITION:

For reasons set forth in Paragraph (5) and (9), NAVSUP WSS has no plans at this time to compete future contracts for the types of supplies/services covered by this document. If another potential source emerges or the government acquires the technical data, NAVSUP WSS will assess whether competition for future requirements is feasible.
