Only the above will be solicited because the articles to be acquired are highly specialized parts, designed and manufactured by a non-Government activity and the technical data required for the above acquisition by other than the above is not available. The part must be procured from a manufacture on the (SCD) Source Controlled Drawing.

6. GOVERNMENT WIDE POINT OF ENTRY NOTICE / POTENTIAL SOURCES:

The proposed solicitation will be synopsisized in the FEDBIZOPPS, which is the Government wide Point of Entry (GPE).

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing data are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining price reasonableness. Certified cost and pricing data will be obtained and used to ensure reasonableness, completeness and realism of proposed costs as required.

8. DESCRIPTION OF MARKET SURVEY: An In-Service Engineering Activity (ISEA) technical review was completed to determine and identify all known sources. The results of this review, completed on 14 July 2014, have determined that no new sources have expressed an interest in manufacturing this item.

9. ANY OTHER SUPPORTING FACTS: The articles to be procured are complex and must meet operational and reliability requirements, the achievement of which requires unique production techniques and extensive and/or sophisticated testing. Suitable technical data, Government data rights, or manufacturing knowledge are not available to permit acquisition from other sources, nor qualification testing of another part, nor use of a second source part in the intended application. This item is being procured utilizing a Source Control Drawing (SCD). Therefore, acquisition is restricted to: General Dynamics, Cage Code 21562, as listed on the SCD (Supply Source Control Drawing).

10. LISTING OF INTERESTED SOURCES: The following sources have expressed, in writing, an interest in this acquisition: *none at this time.*

11. ACTIONS TAKEN TO REMOVE BARRIERS TO COMPETITION: Future requirements for this material will be evaluated to see if the material can be procured on a competitive basis. This item will be reviewed in accordance with the procedures identified in 209.270 Aviation and Ship Critical Safety Items. The head of the design control activity will determine whether a prospective contractor or its product meets or can meet the established qualification standards. For reasons set forth in paragraph (5) and (9), NSWC IHEODTD has no plans at this time to compete future contracts for the types of supplies covered by this document. If another potential source emerges, NSWC IHEODTD will assess whether competition for future requirements is feasible.
