1. CONTRACTING ACTIVITY: [ ] NAVSUP WSS Philadelphia [X] NAVSUP WSS Mechanicsburg

2. DESCRIPTION OF THE ACTION BEING APPROVED: Negotiation and award of a contract through other than full and open competition.

3. DESCRIPTION OF SUPPLIES/SERVICES: This J&A covers the acquisition of the following article(s):

Nomen: Survival Kit, Locking Cord Cutter

Quantity: 1336

NSN: 1377-01-333-9143ES

CAGE Code: 60880/08903

P/N: CI-4.0

Unit Price: \$ [Redacted]

The required delivery date is: [Redacted] Estimated Value (include option): \$ [Redacted] Option: [ ] YES [X] NO % [ ] Days [ ]

AMC 1. Suitable for competitive acquisition for the second or subsequent time.

AMSC C. This part requires engineering source approval by the design control activity in order to maintain the quality of the part. Existing unique design capability, engineering skills, and manufacturing knowledge by the qualified source(s) require acquisition of the part from the approved source(s). The approved source(s) retain data rights, manufacturing knowledge, or technical data that are not economically available to the Government, and the data or knowledge is essential to maintaining the quality of the part. An alternate source must qualify in accordance with the design control activity's procedures, as approved by the cognizant Government engineering activity. The qualification procedures must be approved by the Government engineering activity having jurisdiction over the part in the intended application.

This acquisition will be negotiated with: Roberts Research Laboratory (60880) and Boeing Company (08903)

This item is aviation critical. The minimum need can only be provided by Roberts Research Laboratory and Boeing Company because they are the only approved sources that have demonstrated the unique design capability, manufacturing knowledge, or technical data required to manufacture this item. These parts are critical safety of flight components and require engineering source approval by the design control activity in order to maintain the integrity of the part and escape system. Therefore, this acquisition will be for continued production of highly specialized equipment. Any interested parties will need to coordinate with this office and fund their own efforts to become qualified to produce this item. If the buyer discovers information to the contrary, it will be furnished to the PR initiator for appropriate action. This item is a Critical Safety Item.

**6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERORS AS PRACTICABLE:** The proposed contract action was synopsisized and included a Sources Sought Notice on the FedBizOpps website for government-wide point of entry on

Jan 18, 2016

and as a result:

Market Research was conducted in accordance with FAR part 10. The results of the Market Research conducted (or the reason market research was not conducted) is as follows:

A technical review was completed by reviewing the results of previous market research for identical items to determine and identify all known sources as of July 7, 2015. The results of this review have determined that no new sources have expressed an interest in manufacturing this item. A Sources Sought Notice was posted for Solicitation N00104-16-R-K049 from December 31, 2015 to January 18, 2016. The following sources have expressed an interest in this acquisition: Pacific Scientific, CA, Energetic Systems Engineering LLC, Capco LLC, Cartridge Actuated Devices, and Federal Industries. The interested sources were referred to the engineers at Hill AFB to get qualified.

Due to the critical application of this item, alternate source(s) must be approved in accordance with the design control activities' procedures and requirements which have been established by AFLCMC/EBHJ systems engineer prior to contract award. The Government does not have the data rights or the funding available to support second source qualification efforts. Offerors must possess access to all appropriate data.

**7. DETERMINATION OF FAIR AND REASONABLE COST:** The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

**8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:**

Future requirements for this material will be evaluated to see if the material can be procured on a competitive basis. This item will be reviewed under the Hill AFB Aviation and Ship Critical Safety Items program, as implemented by DFARS PGI 209.270-4. If a vendor is interested in manufacturing this item, they will be referred to Hill AFB for further instructions.

**9. REFERENCE TO THE APPROVED ACQUISITION PLAN:**

An informal / formal acquisition plan is not required for this acquisition.
