JUSTIFICATION AND APPROVAL FOR USE OF OTHER THAN FULL AND OPEN COMPETITION

JUSTIFICATION

1. Contracting Activity

The Naval Surface Warfare Systems, Dahlgren Division (NSWCDD), Contracts Division.

2. Description of the Action Being Approved

The award of a contract on a sole source basis for MTX 1.5 Blue Force Tracking (BFT) Transmitters and associated equipment to General Dynamics C4 Systems, 8201 East McDowell Road, Scottsdale, AZ 85257.

3. Description of Supplies/Services

The contract shall provide support for ongoing [REDACTED] efforts for [REDACTED] through the procurement of the following items: MTX 1.2 BFT Transmitters, P/N: 01-P57410M001, Qty: 67; 14" Whip Antenna, P/N: 181BC-355SHW, Qty: 67; Active L1 GPS Antenna, P/N: AT575-590SMAF-3V, Qty: 67; 30 Foot Piggy Back Power Cable, P/N: 30P59758N030, Qty: 42; 10 Foot Piggy Back Power Cable, P/N: 30P59758N010, Qty: 9; CLIN 0001: MTX 1.5 Blue Force Tracking Transmitter, P/N 01-P57410M001, Qty: 67; Manpack Mounting Bracket, P/N 01-P53861F001, Qty: 41; 28V Power Converter (Piggy Back), P/N 01-P59743N003, Qty: 51; Flying Leads to LEMO Power Cable, P/N 30-P58902N001, Qty: 2; Full Programming Cable, P/N 30-P50022L001, Qty: 15; Battery Replacement Kit, P/N MTX Battery Kit, Qty: 6.

The proposed contract will be awarded at a firm fixed-priced with a delivery date no later than 30 days after the contractor's receipt of the order.

The Government's minimum needs have been verified by the certifying technical and requirements personnel.

The total estimated cost of the contract is \$485,941.00. Navy Operation and Maintenance (O&M) funding is anticipated for this requirement, as follows:

Estimated Dollar Value

	FY11
O&M	\$485,941
Total	\$485,941

4. Statutory Authority Permitting Other Than Full and Open Competition

10 U.S.C. 2304(c)(1), Only one responsible source and no other supplies or services will satisfy agency requirements.

5. Rationale Justifying Use of Cited Statutory Authority

required to maintain the commonality of equipment configuration to ensure compatibility and interoperability with existing systems. The use of a different item would require additional testing and certification efforts to determine the effectiveness and suitability of the new item. These additional efforts would delay program schedules by approximately six months (via procurement/ testing/ certification efforts) and cost the Government approximately \$100,000 in labor to engineer, test, and field a new transmitter. Market research indicates that these additional costs would not be recouped by the Government through competition. General Dynamics C4 Systems is the developer and sole distributor of these proprietary items; therefore, no other source can meet the Government's needs at this time.

6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable

The proposed contract was synopsised on the Federal Business Opportunities (FEDBIZOPS) website on 02 February 2011. No

other source expressed an interest in this requirement. No additional market research was conducted as it is not possible, based on the information in Paragraph 5 above, for any company other than General Dynamics C4 Systems to provide the requisite items.

7. Determination of Fair and Reasonable Costs

The Contracting Officer has determined that the anticipated cost to the Government for the supplies covered by the J&A will be fair and reasonable.

8. Actions to Remove Barriers to Competition

For the reasons set forth in Paragraph 5, NSWCDD has no plans at this time to compete future contracts for the items covered by this document. If another potential source emerges, NSWCDD will assess whether competition for future requirements is feasible.
