Specific characteristics of the material or service that limit the availability to a sole source (unique features, function of the item, etc.). Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

Market research indicated that Action Target Inc is the only provider of the maintenance service required for the Action Target Equipment currently installed in the government's indoor small arms range facility. Action Target Inc is the only source for replacement parts, factory authorized service and repair of Action Target equipment. Each item, component, repair part and equipment provided and installed into this system was engineered, designed and manufactured for Action Target Inc. All equipment sales and service are based out of the company's headquarters in Provo, UT.
