

DEPARTMENT OF THE NAVY
 NAVSUP Fleet Logistic Center San Diego
 3985 Cummings Road
 SAN DIEGO, CA 92136-4200

JUSTIFICATION FOR OTHER THAN FULL AND OPEN COMPETITION

1. Requiring Activity and Contracting Activity: The contracting activity is the NAVSUP Fleet and Logistic Center San Diego, Regional Contracts Department. The requiring activity is the Naval Air Force US Pacific Fleet in support of the Strategic Communications Wing One. The Contracting Office Point of Contact is [REDACTED], Contract Specialist, [REDACTED].
2. Description of the Action Being Approved: The proposed action is for the award of a follow-on supply contract for the procurement of proprietary flight navigation data software and licenses for sixteen Boeing E-6B aircraft. Award will be made to Jeppesen Sanderson Inc. DBA Jeppesen A Boeing Company, 55 Inverness Drive East, Englewood, CO 80112. The anticipated contract will be Firm Fixed Price (FFP) and will include a one year base period and four (4) one-year options. The base period will be funded with Fiscal Year 14 Operations and Maintenance (OM&N) funds.
3. Description of Supplies/Services:

The proposed acquisition is for the procurement of NavData licenses and JEP4 database software. These databases provide highly specialized data used for global aviation navigation and computerized flight planning applications. The NavData JEP4 databases are updated via web-based portal every 28 days and are required for sixteen (16) Boeing E-6B Naval aircraft in support of the Strategic Communications Wing One. These aircraft currently utilize the Aviation Flight Management Computer (FMC) for multi-function display system modified aircraft as part of the navigation system. The NavData JEP4 database is specifically designed by Jeppesen Sanders Inc., and configured for use with the Aviation FMC system currently installed in the Boeing E-6B aircraft.

The total estimated cost of the proposed requirement is as follow:

Period	Part Number	Description	Government Estimate
Base Year	JEP 4	JEP4 Database and licensing	[REDACTED]
Option Year One	JEP 4	JEP4 Database and licensing	[REDACTED]
Option Year Two	JEP 4	JEP4 Database and licensing	[REDACTED]
Option Year Three	JEP 4	JEP4 Database and licensing	[REDACTED]
Option Year Four	JEP 4	JEP4 Database and licensing	[REDACTED]
Total			[REDACTED]

4. Statutory Authority permitting other than Full and Open Competition: Section 4202 of the Clinger-Cohen Act of 1996 - a sole source acquisition under the authority of the test program for certain commercial items, as implemented by FAR 13.501(a).
5. Rationale Justifying Use of Sited Authority: The NavData JEP4 navigation database system is proprietary to Jeppesen Sandersons Inc. and is the only such system specifically designed and configured for use onboard the Boeing E-6B Naval aircraft. Jeppesen Sanderson Inc, a subsidiary of Boeing, is the only authorized source that can grant use of NavData JEP4 navigation data and licenses and maintains intellectual property rights to the licenses and data. The navigation data must also interface in form, fit, and functions with the existing FMC technology used in the Boeing E-6B Naval aircraft. To ensure commonality of equipment and compatibility with existing aircraft software and hardware, Jeppesen Sandersons, Inc. is the only responsible source.
6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable: Upon completion of initial market research, it was determined that there are no other sources that can provide navigation data software that can interface with the existing FMCS technology. Jeppesen Sanderson, Inc. maintains proprietary rights to the navigation database

and is the sole authorized provider of the NavData JEP4 navigation database licenses. A combination solicitation synopsis notice will be publicized in the government point of entry on 14 March 2014 in accordance with FAR Part 5, Publicizing Contract Actions and FAR Part 12, Acquisition of Commercial Items, and FAR 13.5, Test Program for Certain Commercial Items.

7. Determination of Fair and reasonable Cost: The Contracting Officer has determined the anticipated cost to the Government of the database services covered by this Justification will be fair and reasonable.
8. Market Research Conducted/Actions to Remove Future Barriers to Competition: Market research was conducted that included a review of GSA Advantage schedule holders using e-library, discussions with the requiring activity, internet searches of the commercial market place, and Small Business Administration (SBA) searches of small business vendors by NAICS code. Market research revealed that the required navigation data software and licenses meet the definition of commercial items under FAR 2.101 and the items are available from a single source. Due to the nature of this requirement, for the reasons set forth in paragraph 5, NAVUP FLC San Diego has no plans to compete future contracts for the types of data software and licenses covered by this document. If another potential source emerges, NAVSUP FLC San Diego will assess whether competition for future requirements is feasible.

TECHNICAL OR REQUIREMENTS CERTIFICATION:

I CERTIFY THAT THE FACTS AND REPRESENTATIONS UNDER MY COGNIZANCE WHICH ARE INCLUDED IN THIS JUSTIFICATION, WHICH FORM A BASIS FOR THIS JUSTIFICATION, ARE COMPLETE AND ACCURATE.

TECHNICAL COGNIZANCE (Per NAVSUPINST 4200.83F, the end user may perform this technical certification.)

[Redacted Signature] [Redacted Title] [Redacted Name (Printed)] [Redacted Phone] [Redacted Date] *1/29/14*
