*** If additional items are required, please provide on a separate spreadsheet

Required Delivery Date (RDD) or Period of Performance (POP):

Specific characteristics of the material or service that limit the availability to a sole source/brand product (unique features, function of the item, etc.). Describe in detail why only this source/brand can furnish the requirements to the exclusion of other sources/brands. **The required kit has the size 10 and 16 permaswages needed to complete our capability. Line sizes vary from size 4 to 16 our kit is lacking size 10 and 16 and our pump is leaking. Permaswage owns the patents to manufacture the kit although they do out source to other companies.**

The requested material or service represents the minimum requirements of the Government.

The material or service must be compatible in all aspects (form, fit and function) with existing systems presently installed/performing. Describe the equipment/function you have now and how the new item/service must coordinate, connect or interface with the existing system. **The New permaswage kit will fit all aspects of line swedging and increase capability with the procurement of a new kit. As of 2013 eight work request had to be turned away due to our limited capability the current kits we have do not have a size 10 or 16 swedge our size 4 thru 12 are worn and the pump to make the swedge itself is leaking. Ordering every woru part or having it reworked by an authorized repair facility would degrade our capability for that amount of time needed to overhaul the items and would cost**

more money. Each piece is any where between 10,000 and 20,000 dollars individually. Replacing the kit we have would alleviate any future procurement cost and would complete the capability requirements by the squadrons.

- A patent, copyright or proprietary data limits competition: Permaswage co. is the patent holder for this item.
- The items are "direct replacement" parts/components for existing equipment. Provide the information about the Next Higher Assembly (NHA)/equipment which the replacement parts are going into (e.g. description, model, part number, Original Equipment Manufacturer (OEM), etc.).
- Other information to support sole source/brand name sole source procurement. The rationale must then justify "either" substantial duplication of cost to the Government that is not recovered through competition or unacceptable delays in fulfilling the mission of the agency.
