7. **DETERMINATION OF FAIR AND REASONABLE COST:** The contracting officer determines that the anticipated cost to the Government will be fair and reasonable. In instances when certified cost and pricing are required, an analysis of cost information will be performed which will consider field pricing reports, commerciality, procurement history and other available cost and pricing information in determining reasonableness. ISS items are considered design unstable as no formal configuration baseline has been established. Since the Material Support Date is scheduled for October 2015, reprocurement technical data has not yet been developed, and will not be available in time to support Initial Operating Capability (IOC). It is anticipated that technical data will be provided to the Navy at a later date, at which time the technical data will be evaluated to determine if it is suitable for competition, as well as evaluating the feasibility of any other alternatives for achieving and/or enhancing, competition.
