

JUSTIFICATION FOR SOLE SOURCE (DT Micro \$25k)

Ref: FAR 13.106 and NAVSUP 4200.85D Chapter 5 Para. 2.b.(5)

The service or material listed on (Document number)N6874215RC0092C is sole source and competition must be restricted to one source, or to only one brand name for reasons indicated below. There are no substitutes available for this material.

Restricted to the following source or brand name. Provide original manufacturer's name. (If a sole source manufacturer distributes via dealers, ALSO provide dealer information.)

Manufacturer: DT Micro, Inc

Manufacturer POC & Phone Nr. Dave Tucker (360) 731-3830

Mfr. Address 5451 NW Newberry Hill Rd # 105 Silverdale, WA 98383

Manufacturers Dealer/Rep Raymon Hill

Dealer/Rep Address/Phone Number NOANET 4207 SE Woodstock BLVD Suite 625, Portland Oregon 97206 (503) 850-4310

X Description of the item or service required, the estimated cost, and required delivery date.

Provision of 100Mb Ethernet direct point to point connectivity of a three way cabled interface joining the three primary installations Naval base Kitsap; Bremerton, Bangor, and Navmag Indian Island. Supporting a three way bidirectional and redundant, fully capable Ethernet trunked service. Initial installation cost of (b)(5) and monthly reoccurring cost of (b)(5) subscription for one year annual contract of (b)(5)

X Specific characteristics of the material or service that limit the availability to a sole source or particular brand name (unique features, function of the item, etc.). Describe in detail why only this suggested source can furnish the requirements to the exclusion of other sources.

PUD signal service provider NOANet has contracted with NAVMAG Indian Island with local touch labor to DT Micro enabling customer based interconnectivity for Ethernet signal. NOANet is the cable carrier and DT Micro is the awardee of the cabled path. The region has existing infrastructure in place to support the needs of the Navy on a path between Everett and Bremerton. This cable support will enable a four way direct Ethernet tie in of the Four installations.

The requested material or service represents the minimum requirements of the Government

CHECK & FILL IN ALL APPLICABLE BLANKS BELOW

X The material/service must be compatible in all aspects (form, fit and function) with existing systems presently installed. Describe the equipment you have now and how the new item/service must coordinate, connect, or interface with the existing system.

Ethernet Single mode fiber connectivity from Everett to Bremerton to Bangor and to NAVMAG Indian Island converges at Bremerton. This physical medium is existing and enables service capability directly to each Juniper Ethernet interfaces on each installation

A patent, copyright, or proprietary data limits competition. The proprietary data is:

These are "direct replacements" parts/components for existing brand name equipment.

X Other information to support a sole-source buy:

The physical hardware infrastructure is existing as predicated by prior DOD requirements upon HUD and NOANET for single source contracted transport services. Through the use of this dedicated path the DoD and DoE cabled signal services are provided physical protective measures both on and off the naval installations in the area.

I CERTIFY THAT STATEMENTS CHECKED, AND INFORMATION PROVIDED ABOVE, ARE COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE AND DO NOT CONTAIN CLASSIFIED INFORMATION. I UNDERSTAND THAT THE PROCESSING OF THIS SOLE-SOURCE JUSTIFICATION PRECLUDES THE USE OF FULL AND OPEN COMPETITION.
