

## JUSTIFICATION FOR URGENCY

The service or material listed on (Document number) \_N6247816RCF3073 is urgent and advertising requirements are precluded for reasons indicated below. If the service/material is not received by the Required Delivery Date (RDD), specific damages to the Navy will result.

1. Suggested Source(s) (complete with addresses, phone and fax numbers):

(1) \_ENTERPRISE, NADINE CUNNINGHAM, 543-1508

(2) \_JN TRUCK RENTAL, SUSAN CLINES, 831-2724

In the spaces above, provide the name of all known suppliers of the required product, preferably a minimum of three manufacturers. (Although the purchasing office maintains a list of sources, it is best to provide sources you know meet your requirements so that valuable time is not wasted in soliciting and evaluating offers from companies who can't meet your needs. Attach a copy of any market research conducted on potential offerors.)

2. Brief descriptive narrative of service or material required: (25) 7P VANS

3. Required Delivery Date (RDD): \_\_04/15 – 04/30/2016

4. Describe the resulting damages if the above required delivery date is not met. Explain why the service/material is needed and what will happen if it's not received by the RDD. (As necessary, describe the impact on overhaul/availability schedules, impact to base support, personnel safety issues, potential environmental damages, etc.) The impact should be expressed as the daily cost (labor, material, etc.) to the government for each day of delay beyond the RDD.

PACIFIC SENTRY 16-2 will not be able to support the exercise and transportation of 250 warfighters. Transportation is required for 250 warfighters while TDY at JBPHH in support of the PACAF Headquarters directed EXERCISE PACIFIC SENTRY 16-2. Vehicles will be used to transport the warfighters to work centers, lodging, and dining facilities that is mandated by PACAF Headquarters. There are no shuttle or transportation services available to meet the needs of the operational exercise. Personnel will be on a strict schedule to report to duty, and eat at the dining facilities. If we do not have the 25 by 7 passenger vans we will have complete mission failure! The AF will lose at least \$500K due to mission failure. More importantly the Air Force will not be able to measure our readiness to ensure personnel are capable to perform missions so that our military can respond quickly and appropriately to unpredictable threats and challenges. The Air Force provides Global Vigilance, Global Reach, and Global Power for America. Which is vitally important to the defense of our national interests.

5. Lack of prior planning does not support urgency. Please provide a time-line beginning on the date the need was first identified and ending on the date the requisition was submitted to the Purchase Branch. Why is the claimed "urgency" not the result of a lack of advanced planning?

A new OBAN and procedures has been established. The process to have all the detail loaded in the financial system was challenging. Coordination through four agencies. Have been working the issue for three weeks on the financial data .

6. Only our **minimum current** requirements can be purchased under conditions of urgency. What is the minimum quantity that must be obtained by the RDD? Why can't *some* of the total required quantity be procured under urgency while procuring the remaining items/services through the normal procurement process?
