community support facilities and both vertical and horizontal construction for Department of Defense activities in the Naples area managed by PWD Naples.

The contract period of performance is anticipated to consist of a 12-month base period and four (4) potential 12-month option periods for a total maximum duration of 60 months. The estimated maximum dollar value, including the base period and all option periods, for all contracts combined is \$99,000,000. There is no yearly or per-contractor limit except for the four-year maximum. Task orders will typically range between \$100,000 and \$3,000,000, however, task orders above these amounts may be considered if deemed to be in the Government's best interest. Task orders may require both design and construction services. The Government makes no representation as to the number of task orders or actual amount of work to be ordered; however, during the term of the contract, a minimum of \$5,000 is guaranteed to be ordered from each awardee under the performance period of the contract. Contractors are not guaranteed work in excess of the minimum guarantee. There are no additional minimum guarantees obligated for each option year.
