3DEPARTMENT OF THE NAVY
NAVAL FACILITIES ENGINEERING COMMAND WASHINGTON
1314 Harwood Street S.E., Bldg 212
WASHINGTON NAVY YARD, DC 20374-5018

JUSTIFICATION AND APPROVAL

FOR USE OF OTHER THAN FULL AND OPEN COMPETITION

1. Contracting Activity.

Naval Facilities Engineering Command (NAVFAC) Washington, Washington, DC 20374

2. Description of the Action Being Approved.

In accordance with FAR 6.302-1, "One Responsible Source/No Other Supplies or Services will satisfy agency requirements" clause, request authority to increase the IDIQ contract value by $2M of Contract N40080-10-D-0303 awarded on 22 July 2010 to Clark Nexsen for a new total of $32M.

3. Description of Supplies/Services.

The contractor will provide architectural and engineering (AE) services. Specific A/E services that Clark-Nexsen will provide include, but are not limited to, design and engineering support, commissioning and Post-Construction Administrative Support (PCAS) services for General Administrative facilities in the NAVFAC Washington Area of Responsibility. The contract capacity is currently exhausted, however time remains on the period of performance. Re-procurement of these services is currently underway using a consolidated A/E solicitation for an IDIQ contract for General Administrative Facilities, and award is anticipated in 1QFY15.

The projects identified for this request include, but are not limited to, those listed below:

Design/Engineering Project Support:

1. P677, TECOM Schools Instructional Facility, MCB Quantico, anticipated contract modifications to AE services by Clark-Nexsen already underway.

PCAS Support/Commissioning Services:

1. MCB Quantico :TECOM Schools Instructional Facility (P677).
2. Navy Lodge expansion at WRNMMC in Bethesda
3. Electrical Feeder Replacement, Bldg 049 NRL.
4. Rickover Building Systems Repair, PWD Annapolis.

This increase is more than sufficient for inclusion of the projects described above, and some additional capacity through the end of the contract term of 23 November 2015, at which time no further task orders will be executed.

4. Statutory Authority Permitting Other Than Full and Open Competition.

It is requested that other than full and open competition be permitted pursuant to 10 U.S.C. 2304(c) (2), One Responsible Source/No Other Supplies or Services will satisfy agency requirements" clause.

5. Rationale Justifying Use of Cited Statutory Authority.

This increase in capacity is necessary to enable task orders to be issued to Clark Nexsen for a variety of AE services.

The services described are necessary to continue critical AE services that have been started under this A/E contract and now must be continued using the same provider in order to implement design and engineering goals already in process. The actions include but are not limited to modifications to basic AE services as well as PCAS for engineering and administrative work that have been initially developed by Clark Nexsen for specific projects, engineering services related to projects already underway, and services necessary based on the impracticality and premium expense of retaining another AE vendor. A competitive contract award could result in award to a new AE firm who is not familiar with these projects and modifications. Starting over with a different design firm would necessitate some level of rework and introduce project delays and additional costs to meet the new firm's learning curve. Rework typically occurs when, as a result of the replacement of professional services during the execution process, another AE team must spend time validating previous analysis, calculations, designs and assumptions.

6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable.

This action is being executed against an existing IDIQ contract. The basic A/E Services GenAdmin IDIQ contract was competed on a full and open basis, as will the follow- on IDIQ contract.

7. Determination of Fair and Reasonable Cost.

The Contracting Officer will determine the anticipated cost to the Government of the supplies/services executed under this IDQ contract will be fair and reasonable based upon an independent Government estimate and negotiations. Negotiations will focus mainly on level of effort as the A/E's hourly rates were established at the award of the basic IDIQ contract.

8. Actions to Remove Barriers to Future Competition.

Re-procurement of regional IDIQ contracts will be conducted through competitive procedures with possible small business set-asides depending upon the results of market research. This will be a one-time increase to Contract # N40080-10-D-0303.

CERTIFICATIONS AND APPROVAL

TECHNICAL/REQUIREMENTS CERTIFICATION

I certify that the facts and representations under my cognizance which are included in this Justification and its supporting acquisition planning documents, except as noted herein, are complete and accurate to the best of my knowledge and belief.

Maury S. Saunders, AIA (RA), 202.685.0910 12 August 2014

Signature (Printed) Phone No. Date

LEGAL SUFFICIENCY REVIEW

I have determined this Justification is legally sufficient.

Signature, Christine Tollefson, Esq (Printed) Phone No. 12 August 2014

CONTRACTING OFFICER CERTIFICATION

I certify that this Justification is accurate and complete to the best of my knowledge and belief.

Gary Collins 12 Aug 2014

ECHELON IV CHIEF OF THE CONTRACTING OFFICE CERTIFICATION

I certify that this Justification is accurate and complete to the best of my knowledge and belief.

Guy A. Collins 202-685-3224 8/12/14

Signature, Guy Collins (Printed) Phone No. 12 August 2014

ECHELON IV COMMANDING OFFICER CERTIFICATION

I certify that this Justification is accurate and complete to the best of my knowledge and belief.
