

N62470-15-R-4020: REQUEST FOR INFORMATION (MODIFICATION 03) FOR RENEWABLE ENERGY GENERATION TO SUPPLY LOCATIONS IN ITALY

Instructions

The Department of the Navy (DON) issued a Draft Request for Proposal (DRFP) to provide industry with an example of what a future Request for Proposals (RFP) may look like, including some of the terms and conditions that the Government is contemplating for a future procurement. As DON continues to learn new information about the Italian energy market, DON is actively refining the draft requirements.

At this time, based on new information about scheduling services pricing, DON is issuing an amendment, below, to two sections of the DRFP for Solicitation No. N62470-15-R-4020. The Government requests that industry review this DRFP, and the below amended items, and provide comprehensive feedback utilizing Attachment A, DRFP Comment Form provided on NECO with the original DRFP. Please utilize the below link to review the entire DRFP and applicable documents.

Section C.5.4.1 of the DRFP is amended as follows:

C.5.4.1 Not-to-Exceed Renewable Energy Unit Rate

The NTE-K is 0.04049 €/kWh for Production Year Zero with a maximum annual escalation of 2%. Contractor's Blended Renewable Price must be equal to or less than the corresponding Not-to-Exceed Prices for Production Years Zero, 1, and 2.

Section C.5.4.2 of the DRFP is amended as follows:

C.5.4.2 Not-to-Exceed Scheduling Services Unit Rate

The NTE-SS is 0.00049 €/kWh for all Conventional Months and Production Months of this contract. Contractor's per kWh price for Scheduling Services (e.g., CLIN 2-0005) must be equal to or less than the NTE-SS for all Conventional Months and Production Months of this contract.

DON requests that industry respond to these amended not-to-exceed prices in industry's responses to the DRFP.

Comments in response to the DRFP, including Attachment A, DRFP Comment Form, remain due by 17:00 EST on 13 May, 2016 to the Contract Specialist, Erin Quimby, via email at erin.quimby@navy.mil
