

SOURCES SOUGHT INFORMATION  
Solicitation No.: N6247316R0602

1. **Fish Screen and Cleaning System** (2 pages Maximum):

Provide details of commercially available fish screen and cleaning system, manufactured by your organization that has been successfully installed to prevent excess sediment accumulating in front of bar screens. Fish Screen and cleaning units shall interface with a conveyor belt and debris collection and removal equipment. Controls for the fish screen cleaning and conveyor belt equipment shall be housed in a single control panel.

Provide the following information:

- a. Model Number, Catalog Number, Code Number, or equivalent model designation
- b. Product Description
- c. Manufacturer's technical data sheets.

2. **Experience** (2 pages Maximum):

Identify a minimum of one (1) and a maximum of two (2) installed systems where commercially available belt conveyor system has been successfully installed. For each project, provide the customer point of contact including name, phone number, and email, and a narrative description of the product/services provided by your organization. Provide details of the supplied equipment and components. Also provide project title, project location (city/state), procurement contract number, and contract value, if available.
