

SOLICITATION NO. N62478-16-R-5027

June 21, 2016

Ques. No.	Question	Response	Mod No.
15	As a follow up to the Question & Answer document posted to FBO on June 13, Question No. 2, we respectfully request that the SF330 Part IIs be removed from the page limit restriction. Understanding the variety of services potentially required in the RFP and NAVFAC Hawaii's strong commitment to small businesses in meaningful roles on this contract, we have built a team capable of delivering on these goals. This includes a strong bench of experienced small businesses, each requiring a Part II.	The 100-page limitation, which includes the SF330 Part II for each firm, remains unchanged.	3
16	I have a question in regards to the submittal/delivery address provided on the solicitation. Is there a specific building number that the delivery should go to?	No. The delivery address is provided in the pre-solicitation notice.	3
17	For the delivery of SF330 submittals, the subject solicitation indicates the submittal/delivery address is Commander, NAVFAC HAWAII (Code OPHA1), 400 Marshall Road, JBPHH, HI 96860-3139, (A-E Solicitation No. N62478-16-R-5027). Is there a building number?	See response to Question No. 16.	3

SOLICITATION NO. N62478-16-R-5027

June 21, 2016 cont.

Ques. No.	Question	Response	Mod No.
18	<p>We have a question regarding submission requirements for Sub-Criterion (A), Past Performance in Utilization of Small Business Concerns, item 1): (at bottom of page 6, as follows)</p> <p>1) Provide performance evaluation ratings (i.e., CPARS, DD2626, or equivalent) obtained on the implementation of small business subcontracting plans for all of the projects referenced under Criterion (3), Past Performance. Recently completed project evaluations are desired, however, in the absence of recently completed project evaluations, interim ratings for projects that are 80% complete may be considered. If more than five evaluation ratings are provided, only the first five will be considered. In addition, the Government may consider past performance information on other projects as made available to the Government from other sources (such as the PPIRS, etc.) The CPARS, DD2626 or equivalent survey forms provided in Section H will not be counted towards the SF330 page limitation.</p> <p>Under Criterion (3), we are instructed to provide Performance Evaluations after each Section F project – for a total of 10 projects. Are the performance evaluation ratings required under Sub-Criterion (A), Past Performance in Utilization of Small Business Concerns in addition to the performance evaluations provided for Section F projects? Or are these the same as the Section F performance evaluations, in which case all 10 will be evaluated? If the same, do we need to provide additional copies in Section H, or will you reference what is provided in Section F?</p>	<p>The performance evaluations required under Sub-Criterion 7(A) is in addition to the performance evaluations submitted for Criterion 3. Provide evaluation forms for Sub-Criterion 7(A) in Section H; the Government will <u>not</u> refer to Section F.</p> <p>The Submission Requirements for Sub-Criterion 7(A) have been revised. See Pre-Solicitation Modification No. 3.</p>	3
