

This is a pre-solicitation notice only.

This competitive procurement is a 100% small business set-aside, exclusively reserved for the participation of Small Business Concerns only. It is a source selection procurement requiring both technical and price proposals. This procurement consists of one solicitation with the intent to award multiple IDIQ-type contracts for Computer systems facilities management and operation services.

The primary NAICS Code is 541513 and the corresponding size standard is \$25M. The contractor shall provide all labor, material, and equipment to perform field support work for the following:

- a. Load installation geospatial, real property and explosive data into the ESS software for DOD Installations. Work with data owners to identify and resolve discrepancies between the GIS, RPI and explosives data sets and verify that the installation data is ready to perform automated explosives safety site planning.
- b. Convert data from other GIS software applications (e.g. AutoCAD, Autodesk Map, MicroStation, etc.) into the proper formats (ESRI shapefile or geodatabase) and coordinate the systems required for ESS use.
- c. Create geo-referenced ESRI shape files for ESRI geodatabases from digitization of imagery, aerial photography, hard copy maps and scanned maps.
- d. Train DOD users in the use of ESS software.
- e. Provide Help Desk support to users of the ESS Software.
- f. Provide explosives safety site planning support using ESS to DOD Installations.

The performance requirements are tailored for each project, and will be outlined in the PWS for that task order.

The basis for awards is the offerors whose proposals, while conforming to the RFP and considering both price and technical factors, provide the best value to the Government. The technical evaluation factors are anticipated to be (1) Sample Task - technical ability to accomplish work; (2) Technical Capability including corporate experience and key personnel and (3) Past Performance. Technical capability (2) is more important than all other evaluation factors and when combined all evaluation factors are more important than cost or price.

Offers are required to submit separate technical and price proposals for the project. The price proposals will consist of direct labor effort pricing (hours and base labor dollars) of the initial project, which is a sample project provided by the Government.

The period of performance for any resultant contracts will be twelve-month base period plus two (2) option periods for a total of 36 months. The estimated maximum dollar value, including the base year and all options, for all contracts combined, is \$3,000,000.00. Task orders will be competed among the contract awardees. The only work authorized under the contract is work ordered by the Government through the issuance of a task order.

The government makes no representation as to the number of task orders or actual amount of work to be ordered; However, during the term of the contract, the minimum of \$10,000.00 is guaranteed to be ordered from each awardee under the performance period of the contract. Contracts are not guaranteed work in excess of the minimum guarantee. There is no additional minimum guarantee for each option year. It is anticipated that the solicitation will be issued 7-15 days from the date of this notice, and will be option for a cumulative 45 days (including presolicitation and solicitation time). The solicitation will be published no fewer than 30 days. The RFP will be posted on the Navy Electronic Commerce Online (NECO) website at <https://www.neco.navy.mil> and the Federal Business Opportunities (FBO) website at <https://www.fbo.gov>. No hard copies will be provided. It is the contractor's responsibility to check the websites daily for any amendments to this solicitation.

Offers are required to register in the Central Contractor Registration (CCR) database at <http://www.ccr.gov>. Failure to register in the CCR database will make an offeror ineligible for award.

The information being requested does not constitute a commitment on the part of the Government to award a contract or to pay for any costs incurred as a result in replying to this notice. This notice should not be construed as a commitment by the government for any purpose.
