

	Question	Response	Mod No.
1	Please confirm that a project for which professional design services have been completed within the last 10 years meets the definition of a completed project as identified in Selection Criteria 1 (Specialized Experience) of the solicitation.	A project for which professional design services have been completed within the last 10 years does meet the definition of a completed project.	1
2	How will a headquarters project for a Federal Agency that is not part of the Department of Defense, but is consistent in scale with the proposed MARFORPAC Headquarters and contains the relevant attributes of the MARFORPAC Headquarters, be evaluated for relevance in the context of Selection Criteria 1 (Specialized Experience)?	See synopsis modification regarding clarification to Selection Criteria 1 and 2.	1
3	Subfactor (A) a. We have designed all as the Designer of Record on Design-Build teams. The contractors received CCASS reports for these efforts – we did not receive ACASS reports and therefore can't provide performance evaluation ratings. Is it acceptable to document our percentage of small business consultant utilization on these (Design-Build) projects (with CCASS reports) in lieu of ACASS reports?	See synopsis modification to Selection Criterion 7. Subparagraph a under Subfactor A has been deleted.	1
4	Subfactor (B) a. Identify, in terms of dollar value and percentage of total price, the extent of work you will perform as the prime contractor. If this is qualifications only, we won't have a proposed price, as the estimated scope is not clearly defined. Is it acceptable to list the estimated percentage of the design effort that we will perform as the prime contractor based upon the project description in the synopsis?	See synopsis modification to Selection Criterion 7. Revised Subfactor B no longer requires the dollar value for the extent of work to be performed by the prime contractor.	1
5	Subfactor (B) b. Address planned usage of SB concerns... Proposed goals exceeding the NAVFAC Subcontracting Targets may be rated higher. The proposed goals and NAVFAC Subcontracting Targets are expressed as a percentage of total subcontracted values. Is it acceptable to list the estimated percentage of the design effort that we estimate will be performed by our small business consultants?	See synopsis modification to Selection Criterion 7. Subfactor B no longer contains the wording that proposed goals exceeding the NAVFAC subcontracting targets may be rated higher.	1
