

DEPARTMENT OF THE NAVY  
NAVAL SURFACE WARFARE CENTER  
CARDEROCK DIVISION

J&A Number: [REDACTED]

Code: [REDACTED]

P.R. Number: [REDACTED]

**BRAND NAME JUSTIFICATION AND APPROVAL  
TO PROCURE USING OTHER THAN FULL AND OPEN COMPETITION**

**JUSTIFICATION**

**1. Contracting Activity**

Naval Sea Systems Command (NAVSEA), Naval Surface Warfare Center, Carderock Division (NSWCCD), Code 4210, Philadelphia, PA.

**2. Description of Action Being Approved**

This is a limited sources procurement to be awarded without providing for full and open competition. The proposed contract action is a new firm Fixed Price contract for Furuno radars. This requirement shall be competed among Furuno radar vendors.

**3. Description and Specifications**

The proposed acquisition will provide for the procurement of 86 each Furuno 12" Radar Display, 105 each Furuno 8" Radar Display, 184 each 4kw 36nm Radar and 184 each NAVNET Ethernet Hub. These radars are required for [REDACTED] boats. The total estimated dollar value of the proposed procurement is \$ 1,005,180.00 funded by [REDACTED]. The Government's minimum needs have been verified by the certifying technical and requirements personnel.

**4. Statutory Authority Permitting Other Than Full and Open Competition**

The statutory authority permitting other than full and open competition is 10 U.S.C. 2304 (c) (1), "Only One Responsible Source," as implemented by 6.302-1.

**5. Rationale Justifying Use of Cited Statutory Authority**

The radar system needs to interface with existing Furuno GPS receivers and DFF1 network sounders currently installed onboard the [REDACTED]. The Furuno NAVNET 3D radars are the

only radars that meet all the necessary requirements of U.S. Navy radar systems. If a radar system other than the Furuno system is procured, it will result in an unacceptable reduction in the capabilities for the boats (negatively affecting the safety of the boats and boat crews). In addition, the selection of a different radar system would cause a duplication of engineering efforts, as well as additional time and money to design, integrate, and test the new system before it could be installed on any boats.

**6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable**

The proposed acquisition was synopsisized in the Federal Business Opportunities (FedBizOpps) website on 03 January 2013 in accordance with FAR 5.2. While to date no responses have been obtained as a result of the synopsis notification, any responses received will be evaluated. A market survey of various vendors on the internet was conducted to identify any radar system and radar manufacturers that can meet all of the requirements identified above. The Furuno NAVNET 3D radar systems were the only radars that successfully met all of the above requirements.

**7. Determination of Fair and Reasonable Costs**

The Contracting Officer will determine whether the anticipated cost to the Government for the supplies/services covered by the J&A are fair and reasonable, prior to award.

**8. Actions to Remove Barriers to Competition**

For the reasons set forth in Paragraph 5, Naval Surface Warfare Center Carderock Division has no plans at this time to compete future contracts for [REDACTED]. If another potential source emerges, Naval Surface Warfare Center Carderock Division will assess whether competition for future requirements exists.

J&A Number: [REDACTED]

**TECHNICAL AND REQUIREMENTS CERTIFICATION - (FAR 6.303-2(b))**

I certify that the facts and representations under my cognizance, that are included in this justification and its supporting data, including Acquisition Plan No. N/A, except as noted herein, are complete and accurate to the best of my knowledge and belief.

**COMBINED TECHNICAL AND REQUIREMENTS COGNIZANCE:**
