Requisition/PD# N0038316X1270

AMC 3. Acquire, for the second or subsequent time, directly from the actual manufacturer.

AMSC H. The Government physically does not have in its possession sufficient, accurate, or legible data to purchase this part from other than the current source(s). This code is applicable only to parts under immediate buy requirements and only for as long thereafter as the deficiency is under review for resolution and appropriate recoding. This code is only assigned at the conclusion of limited screening, and it remains assigned until the full screening process resolves physical data questions and results in assignment of a different AMSC. If one source is available, AMCs 3, 4, or 5 are valid. If at least two sources exist, AMCs 1 or 2 are valid.

This acquisition will be negotiated with: HONEYWELL INTERNATIONAL(CAGE 59364)
1300 W WARNER ROAD
TEMPE, AZ 85285-2200

This Acquisition will be negotiated with the OEM, HONEYWELL INTERNATIONAL(CAGE 59364). This item has not received a criticality determination yet and Honeywell is the sole proprietor of the technical data required to manufacture, test and certify this item. As the P-8A aircraft is currently in the pre-physical configuration audit (PCA) phase of the life cycle process, the aircraft and mission systems are experiencing constant anomalies and variations within the configuration. Additionally, in the absence of criticality determinations, it is imperative that the Government deal strictly with the OEM/ Prime Vendor for procurement of these items. The Government does not physically have in its possession any engineering or technical data to contract for spares with other than the OEM/ Prime at this time. The Government does not have the empirical engineering data available that would allow for realistic competitive sustainment efforts at this time.
