Folder Number: 15129-0015

Requisition/PD# N0038315X3203

AMC 1. Suitable for competitive acquisition for the second or subsequent time.

AMSC Z. This part is a commercial/non-developmental/off-the-shelf item. Commercial item descriptions, commercial vendor catalog or price lists or commercial manuals assigned a technical manual number apply.

This acquisition will be negotiated with: Honeywell (06848) CFM International (58828)

The articles to be procured (Hydromechanical Unit) are complex and must meet critical operational and reliability requirements, the achievement of which requires unique production techniques and extensive and/or sophisticated testing, and the government has not yet acquired the technical data. CFM (58828) and Honeywell International INC. (06848) are the only approved sources for this item. The Hydromechanical Unit is complex and must meet critical operational and reliability requirements, the achievement of which requires unique production techniques and extensive and/or sophisticated testing. The Government does not own the technical data necessary to manufacture this part. Philosophy of influencing parts-the P8 Engine is a Federal Aviation Association (FAA) fully commercial platform that is limited to CFM certified / FAA certified approved vendors. Failure to use such approved vendors could result in purchase of items that are not of the latest configuration and result in degradation of in-line components which would shorten the life limits or cause malfunction of that component.

6. DESCRIPTION OF EFFORTS MADE TO SOLICIT OFFERS FROM AS MANY OFFERORS AS PRACTICABLE: The proposed contract action was synopsised and included a Sources Sought Notice on the FedBizOpps website for government-wide point of entry on

and as a result:

No other source expressed an interest in this acquisition

Market Research was conducted in accordance with FAR part 10. The results of the Market Research conducted (or the reason market research was not conducted) is as follows:

Market research was conducted in accordance with FAR Part 10. The results of the market research conducted are as follows: The NAVSUP Weapon Systems Support (WSS) has conducted a market research per the market research document. The subject HMU is a Critical Safety Item (CSI) and all alternate sources must be FAA Qualified and be approved by CFM International (58828) who has approved Honeywell International INC. (06848) for subject item. Available data including all publications, associated drawings and specifications required to manufacture and maintain the quality of the subject item is owned by Honeywell International INC. and is not economical available to the government. The government does not possess the manufacturing data necessary to support full and open competition. Other FAA Certified sources that may expressed an interest in becoming an approved manufacturing source for the subject item will be reviewed for future procurements.

7. DETERMINATION OF FAIR AND REASONABLE COST: The contracting officer determines that the anticipated cost to the Government of the supplies covered by this J&A will be fair and reasonable.

8. ACTIONS TO REMOVE BARRIERS TO FUTURE COMPETITION:

For reasons set forth in Paragraph (5&6), NAVSUP WSS has no plans at this time to openly compete future contracts for the subject item covered by this document. If another potential manufacture source emerges, NAVSUP WSS will assess whether competition for future requirements is feasible.

9. REFERENCE TO THE APPROVED ACQUISITION PLAN:

An informal / formal acquisition plan is / is not required for this acquisition.
